# How to use this book

## Welcome to grade 9 English!

**The idea of the book**

This book is designed to be fun! Students learn better when they are having fun, and teachers teach better too! The idea isn't to have students copying things off the board and being bored (and getting naughty!), it is about students using the language to play games, solve puzzles, express themselves, communicate and have fun!

**What do students learn?**

This book is designed to be the main text book for Grade 9 Cambodian students. By the end of the book, students will be well on their way to being A2 level English learners! Students learn the four skills, grammar and 21st century skills. There is more speaking and listening than reading and writing.

**Skills – Listening, Speaking, Reading and Writing**

This book is all about students always doing and always being interested! The readings and listenings are a great mix of engaging, interesting and funny storylines. The speaking and writing encourages students to use their fantastic imaginations! You will probably notice there is very little grammar in this book the way you learnt it as a kid (Hurray!). That's because kids at this age learn grammar much better by actually using it! By listening to it, reading it, writing it and speaking it.

There are lots of great listenings with actors from all around the world so students get to hear lots of different accents and be able to talk from people from all around the ASEAN community and the world! If you don't have **the recordings** yet, just go to the **Ministry of Education Youth and Sport** and **download them for free**!

**Grammar**

This book does teach grammar, but don't worry! It's not boring! Teachers don't talk forever and students don't copy off the board! As I'm sure you remember from you school days, young learners find grammar and copying boring, and if they are bored they won't learn. There is almost never a point in explaining grammar to children in the same way you would an adult. Don't worry! They will still learn grammar! But they will be able to read it, listen to it, write it and say it!

**More than just English – 21st century skills**

We don't know what skills and knowledge people are going to need in the jobs of the future, so teachers today need to be helping kids to be independent learners, great communicators, creative, flexible, and ready for anything life throws at them.

As teachers we have to help students to learn to think, cooperate, communicate and work well, fairly and supportively with their fellow students. This book is designed to encourage a classroom environment to support this where students feel well supported in making mistakes and playing with the language. Students learn group work, how to be supportive of other students, and how to think for themselves and be creative.

They also start to look at the world beyond Cambodia's borders and explore how different countries and culture live. This way, students learn and appreciate different cultures (and hear different accents!).

The idea of teachers teaching knowledge is dying. Teachers teach students to think and learn!

## So, how do students learn all this?

This book has been written with the latest research about how kids learn in mind. This book is all about students always doing and always being interested and enjoying themselves, but that doesn't mean they are screaming round the classroom all lesson!

**Learning in context**

Students learn new grammar and words as well as the 4 skills through games, stories, songs, tongue twisters and being interested! The book has been written with 13 year olds in mind using themes and contexts that they will find funny, sad, interesting, and fun! Our aim is that students will be interested in the *context* of every lesson.

You will notice that new words and grammar are hardly ever explained. That's because young learners are really good at learning new grammar and words just by seeing them in context. Long explanations and talking about nouns and adjectives only make students

/moeyscambodia

http://oer.moeys.gov.kh
#OERCambodia

bored, they don't make them learn, so instead we just skip them and try to keep students having fun and interested, and engaged with the language!

**Through creativity**

Often there is no "correct" answer to some questions and many different grammatical forms are possible. By not giving a "correct answer" and by focusing on effective modeling, students are encouraged to explore the language and play with it as they go.

## Why the book is great for teachers too!

**Easy to use lesson plans**

We have written 'grab and go' lesson plans so all you need to do is to read them before class and think about the reason for each stage – no other preparation needed! We have even written the answers in and provided tapescripts just in case! And, everything is in English so you can remember to be all in English as well! But just because everything is done for you, don't think that you can't try out your own games and activities. We hope this book helps you get the confidence to play around with your own ideas as well! As long as they're fun and in English, your students will love them!

**Reflection**

We have written some things to help you reflect on your teaching at the end of each lesson and help you get better and better every day – just like your students!

## Teaching English Dictionary: Words, ideas and fabulous teaching tips!

**Ask and answer questions as a class:** This is when students find out if they were right or wrong. Students need to know they have understood correctly. There's lots of different ways of doing this. If you have a busy lesson, it's often enough to just yell out the question, and have students yell back the answer. Another way is to ask students to answer one by one. Be careful! Some teachers only ask "good students". This makes other students wonder why you didn't ask them. They might think things like "Does the teacher think I'm stupid?" Another thing to watch out for is some teachers waste a lot of time copying the answers on the board and then allowing students 5-10 minutes to copy the correct answers in their notebooks. Students aren't really learning while they are doing this, and this is valuable time that could be used to actually practice the language, which students will learn a lot more from!

**Boarding useful target language:** This is great for reminding students of the structure/ pronunciation they should be using.
e.g. Just say students are talking about what their friends like, but are forgetting the 's' sound. Why not write *"She like**s** …"* in a speech bubble on the board? That way you are not interrupting students, but you're reminding them of the grammar without using grammatical terms.

**Brainstorming:** This is a great habit to try and get your students into and will help them in university and beyond! Students brainstorm before they write (and sometimes speak depending on the activity). There's lots of ways to try and do this. You can have students draw, talk, draw pictures or even close their eyes and listen to music!
e.g. You want students to write about their best friend, but worried that students will say that they don't have any ideas. You could have students draw a picture of their best friend and write as many adjectives as they can in a few minutes. This helps students to get ideas without worrying about sentence structure or being neat.

**Copying from the board:** This has been very popular in Cambodian classrooms for a long time. The problem with English class is though, that it only goes for 50 minutes! A rule of no more than 3- 5 minutes copying a lesson is probably a good idea!

**Class discussion:** This is when you talk about a subject as a class. These can be useful, but make sure that you are not talking too much and students know how to listen and be respectful about other people's opinions!

**Concept checking questions:** These are questions you can use instead of "Do you understand?" Students don't want to look dumb in front of their friends so they always say "yes"! Concept checking questions are usually about vocabulary or grammar. They can be very easy!
e.g. You have just taught the words "pen" and "pencil". Point to a pen and ask "Is this a pencil?"
Make sure students listen to and practice the way words are said **naturally**.

**Controlled practice:** This is when students answer grammar questions when there is really only one right answer. These exercises are supposed to be quick and are just so that students check that they understand a grammar rule.

**Drill:** Drilling is when students listen and repeat a word or phrase after the teacher, the recording, or another student so that they can try and say it exactly right. There are lots of ways to drill. You can have students do an action when they say a word, get quieter and louder and use hand actions to show the stress. Be careful, though! If you drill too much, students will be bored and feel like they can't do it right.
Drilling used to be very popular, but now people don't like it as much because it gives the idea that only the teacher can say a word correctly. Listen to your students. Is someone saying the word really well? Get your students to repeat after that student!

**Encourage:** Tell students what they are doing well a lot! It's much easier to encourage good behavior than to punish "bad" behavior. Kids need a lot of this, even (or sometimes particularly) 'naughty kids'! The best English classrooms are fun and supportive!

**End sounds (terminal consonant sounds):** In Khmer, we don't really make the last sound of a word, but in English it's really important! Remembering to make the last sound in English can be really hard for students! Words ending in 's' or 'ed' are extra hard because the noises change! Helping students make the end sound means that people will be able to understand them a lot better, especially native speakers!

**English only classroom:** An English only (or almost English only!) classroom is the best way for anyone to learn English! Let's look at some of the reasons why.

- If students don't speak English, they won't learn English. If everything is in English, students spend more time practicing English!
- The more practice students have, the more confident and comfortable with English they'll be!
- Students will learn meaningful English. e.g. "May I go to the bathroom?" "What do you think?"
- If students are switching from Khmer to English, they are probably using Khmer grammar and pronunciation which is **very** different to English grammar and pronunciation. Students can form bad habits this way.
- If students are speaking in Khmer, they aren't thinking in English.
- The more students speak in English, the more students are thinking in English. When students are able to think in English, they learn **so much** faster!

But if you want to make your kids speak only in English, you have to do it, too! In an A1 classroom you're going to have to use a lot of body language, but you can do it!

Give yourself a daily challenge. See how much of your lesson (from you and your students) can be in English!

**Error correction:** Telling kids when they're wrong is tricky and much less useful than when you tell an adult they are wrong. You have to make sure kids still feel great about taking risks and making mistakes. It's better to look for correct usage and then tell the class how good it is (and the student who did it obviously!) There is no point being fussy and jumping on every little mistake!
e.g. You have been talking about what students' friends like and you have noticed that some students are forgetting the 's'. You hear that one student is remembering the 's'.

**Teacher:** OK let's come back together. Tevy, what does your friend like?
**Tevy:** She like icecream.
**Teacher**: Great. Bopha, what does your friend like?
**Bopha:** He like**s** cats.
**Teacher:** Great! I like that! Can everyone hear the "**s**" in like**s**? Say it again, Bopha.
**Bopha:** He like**s** cats.
**Teacher:** Let's all try saying it like Bopha.
**Class:** He like**s** cats.

You haven't told Tevy she's wrong. She's been brave, spoken in front of the class and used the language in a way everyone can understand. It's not the end of the world that her pronunciation is wrong.

**Follow up questions:** These are great! If you have 2 students in a question/answer session, making students ask follow up questions means that they have to listen to their partner speak and that they are using English in a natural way.

**Free practice:** We usually use this word when we're talking about grammar. This is when students get to try out and play around with the language in a way that is meaningful to them. We don't worry too much about students using "perfect" grammar. This is really when students gain confidence and fluency. This is the main point of lesson. If students don't practice it, there is **no** point in teaching it! There is **zero** reason to teach new words and grammar if students don't get to **use them** in meaningful ways. Often this is speaking and writing where students use the grammar in a natural way through role plays, creative writing and personalisation.
e.g. You have been studying the present simple. Students have seen the grammar in context in a listening, and looked at the rules. They then talk about their daily routine.

**Getting kids to move around:** Some classes in Cambodia are very crowded and it would take too long to get everyone in and out of their seats. Because of this, we mostly we have kids sitting down in our lesson plans. If you have enough room, don't be shy to get kids up and jumping up and down!

**Give a time limit:** Students need to know how long they have to do things. It helps them understand what you want (making notes, or detailed writing). It also means students are

/moeyscambodia /krou.moeys.gov.kh http://oer.moeys.gov.kh #OERCambodia

more likely to stay on task (do what you tell them to)! If students don't have time limits, they might feel like you're being unfair when you tell them time's up, or if they have too much time, they will start doing other things.

**Grammar:** Grammar means the set of rules about how a language works. All language learners need to become familiar with grammatical rules to be understood. But adult learners and young learners are different. Adults often find it useful to break things down into nouns, adjectives, clauses and phrases, but spending lessons copying out the rules of the present perfect doesn't benefit younger students! They find it too hard to connect the grammar with the language and get bored and naughty. Younger learners learn grammar in context through reading, listening writing and speaking – in other words **practicing** the structure.
Grammar is another reason to enforce an English only classroom rule. Khmer grammar and English grammar are very very **very** different! Students find it hard to switch between to 2, and can form bad habits this way which can be very hard to break later.

**Homework:** Do you remember homework as a kid? Did you love it? Hate it? What did you miss out on doing because you were doing homework? How much homework do you think kids have from all their other subjects? What do you think would happen if you didn't give homework for a week?
A lot of people give homework because – well just because! If all a student's teachers give homework, they can end up with a lot! People think that if students have lots of homework they'll do better, but there is very little real evidence for this. Let's think about a grammar worksheet. Students who already understand the grammar are wasting their time, and students who don't understand will feel sad that they can't do it at school or at home!
In fact, having lots of homework can be very bad for kids! Let's look at some of the reasons.

- Students have less time to spend with family and friends.
- Students will have no time to do what they want.
- It can make students feel like they don't like learning.
- It can make students tired in class the next day so they can't learn very well.
- It can cause fights at home – especially with weak students.

Can you think of any others?
***If*** homework is given, it should help students to think and engage. It should be given only when it's important, not just because – well just because!
**Instruction Checking Questions –** These are **great!** They help you to see if students understand what you want them to do and they can help you speak Khmer less in class. It's easy! You tell students to do something and then ask questions about what you want students to do, and how you want them to do it. So, you're instruction checking questions might look a bit like this:

**Teacher:** Close your books, and talk with your partner about the questions on the board. Books open or closed?
**Class:** Closed!
**Teacher:** Talking or writing?
**Class:** Talking!
**Teacher:** Where are the questions?
**Class:** On the board!

Can you see the instruction checking questions? Are they *Books open or closed? Talking or writing?* and *Where are the questions?*
You can also use instruction checking questions to make sure students remember to behave well. So, your behavior instruction checking questions might look a bit like this:

**Teacher:** I want you to talk to your partner about their weekend. I want you to listen. How can we be good listeners? Do we play with our things or look at our partner?
**Class:** Look at your partner!
**Teacher:** And what can you ask after?
**Class:** Extra questions!

Look at the lesson plans. We have written in where you can ask your own instruction checking questions.

**Lead in:** This should be quick! This is so that students can start thinking about the content or the themes of the lesson. For instance, if the lesson is about a day at the zoo, you might like to ask students to talk to their friends about animals they expect to see at a zoo.

**Listening for the big idea:** This is also called the *gist listening* or *listening for the main idea*. This is the first listening. Students only need to understand the basic idea of the listening. They don't need to hear every word. Just mainly understand what the purpose of the listening is.

**Live listening:** A live listening is where you don't use the recording and you use people in the room to do the voices! You can read the listening yourself, or you can get students to read. You can have different students be different characters. This can be great homework for kids!

**Model:** This is when you show students what you want them to do. You might model a grammar question, a word, a piece of writing – almost anything! For example, if you are doing writing, it is useful for students to see a similar piece to what you want them to write. This **doesn't** mean that students copy, it means that they have an idea of what you want from them.

**Note taking:** In this book, note taking is a type of brainstorming. See *brainstorming*.

**Peer correction:** This is when students correct each other's work. Let's face it, you don't have time to correct everybody's work! Especially in the middle of class when there are 50 kids in the classroom! But why do we correct anyway? It's so kids think about correct grammar/spelling/structure (whatever!). If students correct each other's work, they are thinking about these things.

**Personalisation –** *The more meaningful, the more memorable.* If students can relate a lesson to their own experience of the word, and it means something to them personally, it is much easier for them to understand it. You will often see this as a post task, but could be a lead in as well.

**Post task:** This is done after the free practice. The idea of a post task is usually that students personalise the lesson and make it meaningful to them in some way. For example, if the

/moeyscambodia /krou.moeys.gov.kh http://oer.moeys.gov.kh #OERCambodia

reading is about a girl in Russia talking about her grandmother, a post task might be students talking about their own grandmothers.

**Pre-teach:** This is when you teach a word or idea before a listening or a reading so that students can ***understand*** a reading or listening better. This is my best teaching tip about pre-teaching words – Students don't have to understand all the words! Kids are really good at guessing what words mean as well (much better than us old teachers!). Young learners can understand a new word by looking at the words around it and guessing.

**Put students in groups:** Good grouping can make or break a lesson! I like to vary my groups so students are working with someone new every lesson. This means that students end up feeling safe in front of everyone. I also like grouping students together randomly! If you group students according to their skill level, it's the same as telling some students you think they are bad at English.

**Reflection:** Reflection means looking back on your lesson so you can think about what went well, and what you can do better next time! Reflecting doesn't mean you're a bad teacher. In fact, teachers who think they are already perfect and don't think they need to improve are probably bad and boring teachers! Reflections help you become a better, more confident, happier teacher. They also help your critical thinking skills and creativity, so it's not just students who get to have fun learning!

**Roleplay:** Role plays are when students pretend to be someone they are not and then talk to their partner or group. For example, one student pretends to be a parent, and the other student pretends to be the kid. Role plays can be really funny, and they're great because students feel safe to say whatever they like without worrying if their friends think they are cool!

**Student-centred classroom:** This is what we are aiming for! New ideas about learning language say that students learn by doing. In a student centred classroom, the teacher talks as little as possible and lets the students spend most of the lesson practicing English. This is much better than the teacher talking about grammar for hours on end, and much more interesting for the students and the teacher!

**Students listen for the answers** – This is also known as "listening for detail". Students will have already listened once and know basic information about the listening like where it is, who is talking and why. When students listen for the answers, we want them to practice picking out specific information. Usually, students won't be able to do this on the first listening.

**Stirrers and settlers:** "Stirrers" get the kids excited and "settlers" calm them down. Any good young learner's teacher knows about this golden rule of teaching! The idea is that a lesson will switch from stirrer to settler to stirrer to settler throughout the lesson. This way, kids can concentrate and learn! You should try to never have an activity that goes for more than 15 minutes – and that goes for stirrers or settlers. If a settler goes on for too long, students get bored, off task and find other ways to entertain themselves (like being naughty or annoying fellow students). If stirrers go on for too long, kids get over stimulated, silly and off task (like being naughty or annoying fellow students!).

That's why our lessons are written as a good balance of both! If you look at a lesson plan in the book, you'll see that the activities change from exciting activities that wake the students up, to quiet activities that calm the students down and then back to an exciting activity again. Have a look at one of the lesson plans. Can you spot the stirrers and settlers?

**Students guess:** This is when students look at clues and try and guess what a listening, reading or lesson is about. It's quick, but this is a really important stage of the lesson! It helps students recall useful words, and things that they already know about the subject as well as let them think about what they guess they are going to hear.
e.g. Students will listen to a student talking about a scary experience. The teacher draws 3 things from the story on the board and students need to try and guess what the story is.

**TTT –** This stands for **t**eacher **t**alking **t**ime. It means the amount of time that you talk at the front of the class. An example of good teacher talking time is asking quick effective questions (but there are lots of different types!). Bad teacher talking time is repeating in Khmer or going into too much detail with explanations. Remember the golden rule! 80% of the lesson – students do, 20% of the lesson - teacher does!

**Warmer:** This can be a **quick** game or fun activity to get students to start thinking in English. It may or may not link to the last lesson or today's work. The main things that you need for a successful warmer is that they be fun and in English! Warmers are great, because they get kids ready and focused for the lesson and give kids a great and fun reason to turn up on time (but also give a chance for late students to arrive).

The bus arrived at the zoo at 12.30 pm. Heang was so excited! She said "If we hurry, we might get to see the baby elephants before it gets too hot and they go inside". As soon as the bus stopped all the students ran to see as many animals as possible. Miss Mom told all the students to buy a map of the zoo because they could get lost. Unfortunately, they couldn't see the tigers because they were sleeping inside a dark cage. Mr Sophal, the zookeeper, said 'The tigers usually wake up at 4 pm, so you could see them then if you're lucky'. Vuthy said 'We might come back if we have time'. Vuthy asked Heang what she wanted to see first. She replied 'Well, the tigers are asleep, so I may see if I can find the giraffes and then I might look for the lions". Piseth tried to give the leopard one of his sandwiches, when the zookeeper saw Piseth he shouted 'Hey! Stay away from the cage because the leopard might jump up and bite you!' Piseth took a big step back away from the cage. Some of the students thought they might see the tigers at 4 pm, but the tigers were still sleeping. The students weren't too disappointed, because they had all seen so many different birds and animals. Everyone was tired when they got back on the bus. Miss Mom said that it was such a good day that they may come back again next year.

We played them two weeks ago. But, the last time we played against this school we lost. We didn't want to lose again, so we practised everyday. We played brilliantly and we won easily. After the match, we stopped at a restaurant in the town to celebrate. My friends ate lots of food, but I didn't eat anything because I was so excited! ***It was so good!***

**Heang:** Last weekend I studied for my chemistry test. ***I was so unhappy*** I'm not very good at chemistry, so I have to study very hard. I studied upstairs most of the day. My mom cooked lunch for me, so I did have a short break at around noon. But then it was back to work! I didn't stop all day! Some of my friends went to the cinema, but I didn't go because I was too busy! And I had to do the same thing again on Sunday. ***It was terrible!***

We drove for about one hour to get to the river.** ***We were all very excited.*** **My** little sister sat and watched my dad for an hour, so she could learn how to fish. I caught lots of fish, but my sister didn't catch any because she didn't like putting the worms on the hook. We didn't eat any of the small fish. My dad decided to put them back into the river because they were too small to eat. My dad caught the most fish. But guess who caught the biggest? Yes! It was me! ***I had a fantastic time!*** **I really liked fishing but my sister didn't like it at all!**

2. Tell them that **two** of the things you tell them are **true**, but **one is a lie.**
3. Tell them that they have to guess which is the lie.
4. For example:
   a. I went to sleep at 10 pm last night.

7. Once you are sure the students understand put them in groups of three or four.
8. Tell them to think of three things and say them to their partners.
9. After five or six minutes stop the activity and ask who guessed correctly.

A._____ B._____ C._____ D._____ E._____ F._____

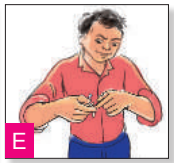

**2** **Look at the pictures. Who is in the pictures? What is happening?**

Last weekend Piseth went fishing with his dad and his sister. Their mother didn't go because she wanted to visit her sister. Piseth's mother got up very early to cook her family breakfast. Piseth and his sister didn't get up till nearly 8 am because they went to bed very late. Piseth and his father had a big breakfast, but his sister didn't have anything because she was too excited. After breakfast they all got into the car and set off.

When they arrived at the river, they found an excellent place to fish under the shade of a huge tree. Piseth used his new fishing rod. His younger sister, Thida, didn't use a fishing rod; she used a long bamboo pole. Piseth sat quietly, but his sister didn't sit quietly, she kept standing up and walking up and down the river bank. Suddenly, Piseth's float went under the water. Piseth turned the handle on the reel and very soon the fish was safely on the river bank. The fish was only small, so Piseth dropped it back into the water. During the morning Piseth caught lots of fish, but Thida didn't catch any. Piseth's father cooked one of the big fish, but Piseth didn't cook any fish because he enjoyed himself so much.

After lunch, Piseth put another worm on the hook and before too long his float disappeared again. Piseth soon realised that he had hooked a big fish. He tried to reel it in, but the fish was too strong. His new fishing rod bent over, but the fish kept swimming away from him. He shouted to his father to come and help him, but his father didn't hear him shout. Piseth fought the fish for nearly twenty minutes when all of a sudden the line broke and the massive fish was gone. Piseth ran to his dad to tell him what had happened.

Piseth caught lots of fish that day and he really liked his time fishing, but his sister didn't catch anything and she didn't like fishing at all! When Piseth returned to school on Monday morning, everyone had to listen to his story of 'the one that got away'.

## 3c A day fishing - It all went wrong

**1** **Look at the pictures. Where are they? What do you think went wrong with their fishing trips?**

**2** **Quickly read the two texts. What was the problem in each story?**

Nary from Pursat

The last time I went fishing was about three months ago. I went with a group of friends from school. We went to a huge lake near Kampong Luong. I've always wanted to go fishing, but my friends didn't want to go because they think fishing is just for boys! When we arrived at the lake, it was very windy and there were dark clouds in the sky. Two or three hours later it started to rain. My friends all brought raincoats, but I didn't bring one because it was hot and sunny when I left home. Eventually, I began to feel cold, wet and miserable. My friends caught one or two small fish, but I didn't catch any. I just sat on the river bank in the rain for five hours. I asked my friends if we could go home. Some wanted to go home but some didn't want to go home. They wanted to stay because they had fun! So, we stayed for another three hours, before we eventually put everything back into our old yellow van and drove back to the sunshine.

Sambath from Kampot

I went fishing on the 12th April last year. I remember the date because it was my birthday! My uncle took me and my sister to the sea for fishing. He didn't take my older brother because he wanted to stay at home and watch football. We went fishing in a small motor boat near Koh Rong. It was a beautiful day. There was hardly any wind and the sun was shining. My sister felt sick on the boat because of the waves, but I didn't feel sick because I enjoyed it so much. I thought it was great! My uncle knew how to fish but I didn't know how to fish, so my uncle showed me how to put a worm on the hook. We had great fun! But after an hour the motor on the boat stopped and we couldn't start it again. I was scared but my uncle wasn't. He was relaxed even when we moved far away from the shore. I didn't know what to do, so I shouted and waved my arms. My sister was so scared she didn't shout or wave her arms, she sat quietly at the back of the boat. Eventually, people in a big fishing boat heard us shouting and helped us back to the shore. I didn't cry, but my sister was so happy when we got back to solid ground that she cried!

## 4b Working at a restaurant - My part time job

**1** **Look at the picture. Where is she? What do you think she has to do? Tell your neighbour.**

**2** **What is Sokuntheary able to do at the restaurant?**

My name is Sokuntheary. My father owns a noodle restaurant called Morokot's Corner. I work part time in the restaurant on the weekends and holidays. My father says I am not able to work more than that because I have to go to school full time and study English part time. He wants me to study hard, so I am able to get a good job when I finish school.

When I work at the restaurant, I have to do what my father tells me to do. He says that a good employee has to be able to follow directions. He tells me when I have a chore to perform I must try my best to complete it quickly. Sometimes he is able to help me, like when I have to scrape the food off the plates or sweep the floor. When we do these together, I always tell myself I must work hard to make my father proud of me.

Last week two travellers came to eat at the restaurant and they weren't able to speak Khmer. They asked, 'Are you able to speak English?' My father shook his head no, because he isn't able to speak English. He asked me to take their order. Later, he told me that I have to take orders whenever an English speaking customer comes to eat in the restaurant. Now I must study harder at school, so I can impress my father.

**3** **Are the statements Correct (✓) or Incorrect (×)? Rewrite the incorrect ones in your notebooks.**

1. Sokuntheary's father works in a noodle restaurant.
   × *Sokuntheary's father owns a noodle restaurant.*
2. She is able to work only part time at the restaurant.
3. Sokuntheary attends school part time.
4. Her father thinks good employees don't have to be able to follow directions.
5. Last week two travellers who ate at the restaurant weren't able to speak Khmer.
6. The travellers asked, 'are you able to speak Khmer?'
7. Sokuntheary has to take orders when English speaking customers eat at the restaurant because she is able to speak English.

**2 T.2.4.3 Listen and read. Vuthy describes how he balances schoolwork and his job in his family's restaurant.**

★ What must Vuthy do to be able to complete his homework and work at the restaurant?

Going to school full time and working part time in a restaurant can be difficult. To be able to complete my homework, I must manage my time carefully. That means many days after school I'm not able to hang out with my friends because I have to go to work or go home to do my homework.

I have to work at the restaurant 3 nights during the week and Sunday afternoons. I have worked at the restaurant for 4 years. I am able to do any of the jobs in the restaurant. My favourite duty is working as a greeter and showing people to their tables. I also like bringing people their food. I don't enjoy it when I have to mop the floors or wash the dishes. My father tells me that if I want to be successful in life I must accept doing some things I don't enjoy.

All in all, I like helping out my family. I don't know if I always want to work in a restaurant, my father says I must decide that myself. At the moment though, I am able to earn some spending money. That makes me happier when I have to go home to study.

## 4 Promises, easily made and easily broken.

★ Read the texts and match them with the promises in the box.

| | | |
|---|---|---|
| a. I'll pay you back tomorrow. | b. It'll be ready tomorrow. | c. I'll write to you. |
| d. I'll always love you. | e. I won't tell anyone. | f. This won't hurt. |

1 All over the world young people make this promise to each other. Endless love exists, but can this be the most difficult promise to keep?

2 This promise is heard from professionals that take something of yours to be repaired. The truth is it usually takes much longer to get the item fixed.

3 As children we are told not to borrow or lend money to people. When you lend money to someone they always make this promise, but then forget.

4 This is favourite phrase for many doctors. They say just before giving you an injection. But they only say part of the phrase. The full phrase is This won't hurt me, but it will probably hurt you.

5 On holiday you make a new friend and swap email addresses, and make this promise. Months later you find their address and realize you have forgotten your promise to them. Then you also remember they didn't write to you either.

6 Secrets are fun and we make this promise happily and mean it. We tell them not to worry that their secret is safe with us. But of course it isn't. It's been proven that one other person is always told and then everyone knows.

## 5 Ability challenge.

★ Copy the table in your notebook.

★ Challenge your friends to perform the actions.

**Example:** *A: Sophat, can you pat your head and rub your stomach at the same time?*
*B: Yes, I can. Piseth, can you?*
*C: No, I can't. Rany, can you do it?*
*A: Yes, I can.*

| Name | Can | Can't | Challenge |
|---|---|---|---|
| 1. | | |  Pat your head and rub your stomach at the same time |
| 2. | | | |
| 1. | | | Say the months of the year backwards in English without making a mistake (e.g: December, November...) |
| 2. | | | |
| 1. | | |  Stand up and touch your toes |
| 2. | | | |
| 1. | | | Count to 20 in English in 10 seconds |
| 2. | | | |
| 1. | | | Say the English alphabet in 10 seconds |
| 2. | | | |

★ Now write sentences about you and your partners' abilities to do these challenges.

**Example:**

3. In pairs tell students to read the short texts and match them with the correct promises.

2. Tell each member to draw the table in their notebooks and write their group member's names in each box.
3. Explain that in their groups, the students should take it in turns to try out the challenge and then tick the 'can' or 'can't' column next to their name depending on whether they completed the task successfully or not.
4. The students repeat the procedure for all of the challenges in their groups and complete the chart. Ask instruction checking questions. Allow 8 minutes for this.
5. When the groups have completed all the challenges, ask students to write sentences about what they can and can't do. Allow 3 minutes for this.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask some students to read a couple of their sentences from Activity 5.
2. Allow students to ask you to perform some of the challenges from Activity 5 and then say a summary sentence of your success or failure.
3. Listen to their questions and responses; are they using the target language correctly? Do they need help?

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. What was your role during the lesson? Did you actively instruct the entire class or did you walk around and observe and interact with/counsel individual students?

| **Write your name on the paper.** | | | |
| **Use a ruler to draw a line across the paper.** | | | |
| **Draw a circle on the piece of paper.** | | | |
| **Erase the circle with an eraser.** | | | |
| **Fold the paper in half.** | | | |

- ★ Write sentences in your notebook about your group's successes and failures.

*Lefties Rule!*

*You have two sides in your brain – a left and a right side. The left side controls the right side of your body and right controls the left half. It's a fact. Therefore, left-handers are the only people in their right minds.*

- ★ Pair with someone from a different group and interview them about how well they and their partners were able to perform the tasks.

# Chapter 2, Unit 6, Lesson C

## Village occupations: The repair shop: Can you do this?

**(10 mins): Warmer. I can charades**

1. Put students in groups of 4-5 and tell them they are going to play a game.
2. One member of the group should stand, say, I can… and perform an action that they can do, without saying what they can do.
3. The group members say what they think the action is in the form of a statement, *i.e.* You can cook.
4. If the group guesses incorrectly, the student acting out should shake their head no and perform the action again until their group mates guess the correct action.
5. After guessing correctly, another member of the group gets up and performs their action.
6. Continue until all members have had a chance to perform an action.

**1 (18 mins): Activity 1. Left-O-Rama**

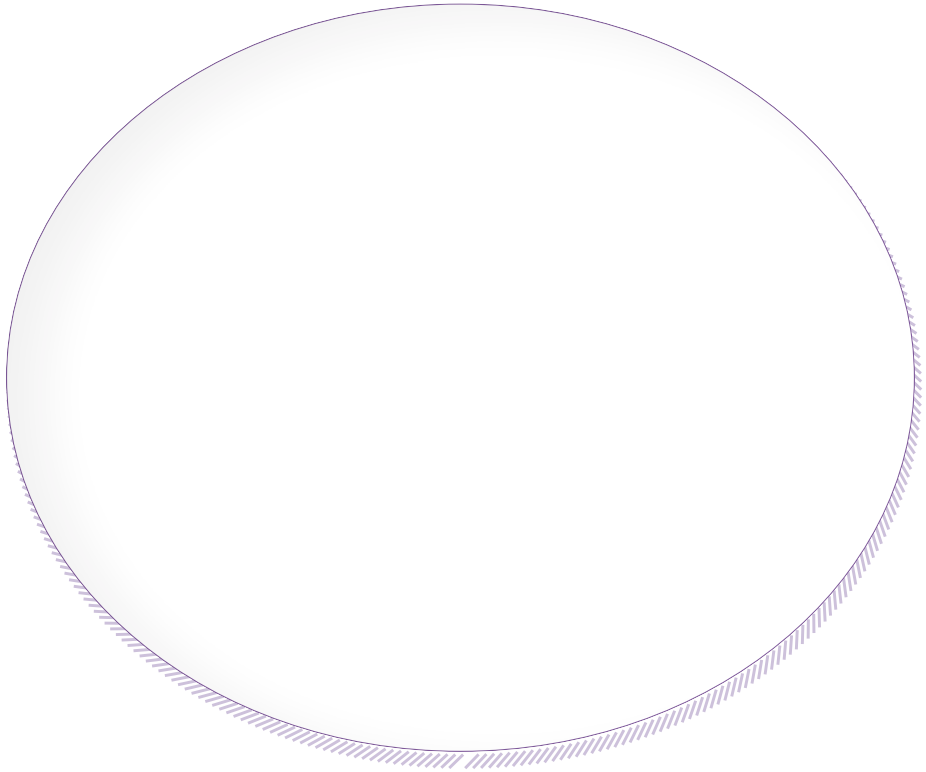

1. Ask students how many of them are left handed. Tell them that 10-30% of the world's population is left handed, which makes them quite few in number. (The number in your classroom may be even fewer.)
2. Put students in groups of three and have them draw the table in their notebooks.
3. Tell them they are going to perform a few common tasks with their left hands (if a student is left handed, they should do the actions with their right hands).
4. In their groups, one member asks another, "Can you ...?" Then, with their right hand behind their back, they attempt the task. If successful, they say "Yes, I can." All members write can under that person's name and then the next member is asked and tries.
5. Ask instruction checking questions, *i.e.* Which hand are we using?, etc … and give students 10 minutes to perform all the tasks and record their success or failures.
6. Afterwards give students 5 minutes to write sentences in their notebooks about their group's successes and failures in performing the tasks. *i.e.* I can draw a circle with my left hand, but Lena and Vathana can't.
7. Now have students pair with a member of another group. Tell them they have 3 minutes to interview their new partner about their group and how well they could perform the tasks.

**(10 mins): Board / Whole class activity. My stickman can / can't**

1. Divide the class into two teams and put one member from each team at the whiteboard.
2. Have them each draw a stickman, including as many body parts as they can (*i.e.* eyes, feet, fingers, eyebrows, etc.)
3. One of the teams says something that the other team's person can't do, *i.e.* "Your stickman can't play football". That team should erase the minimum number of body parts that they can match to that description, e.g. just the feet so that they can kick. There might be some discussion about whether the person can still do that thing with the remaining body parts.
4. Next, the team that was erasing then says something similar for the other team's stickman. This continues until one stickman has completely disappeared or the teacher stops the game.
5. Then, they take turns trying to build up their own stickman from that point as quickly as possible, *i.e.* being able to put back the eyes, hands and fingers by saying "Our stickman can play Candy Crush".

**2** **How can you be a better English student? Think of 4 or 5 things you can do to help you improve your English language skills this school year and write them in the diagram in your notebook.**

## *How I Can Improve My English Skills.*

★ Now write your ideas in sentences making promises to do the above things.

**Example:** *I will complete all my homework on time.*

5. Afterwards, have them write sentences in which they promise to do these things. Ask instruction checking questions about how they will construct these sentences, if students don't know refer them back to the rules in Lesson A. Allow 4 minutes for this.
6. Lastly have them compare their promises with a neighbor. Allow 2 minutes for this.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask students to look at the 'can do' statements.
2. Have them tell their neighbor how they feel about the statements.
3. Ask some of the students to tell you how they feel. Use this to assess their understanding.

**1** **Look at the picture.**

- ★ Does the food in the fridge look healthy or unhealthy?
- ★ What food can you see in the fridge?

**2** **Read the story quickly. What fruits and vegetables does Heang talk about?**

Hi, My name's Heang. I like playing sports and I have won lots of medals for running. A lot of people ask me how I stay so fit. Well, I exercise every day and I eat a balanced diet. First you should always have a variety of healthy food in your fridge. There are plenty of carrots and potatoes. You should always have some vegetables. They are nutritious and contain lots of vitamins which help your body to work properly. You shouldn't have any fast food, like pizzas or hotdogs. They contain a lot of fat. You should have some water but you shouldn't have any soda because it contains a lot of sugar which is bad for your teeth. You should also have some fish and eggs because they give you protein. But you shouldn't have any chocolate or candies because they contain sugar. They taste good, but they aren't nutritious. It's important to eat a variety of food. Don't eat the same thing every day. You should have some different fruit like apples and oranges. You shouldn't have any crisps or french fries in your fridge. And you shouldn't have any cakes or biscuits in your fridge! They don't contain any protein or vitamins, so they aren't very nutritious at all!

*Should = Recommended = A good idea.* *Shouldn't = Not recommended = A bad idea.*

**3** **Read again. In your notebook, write three things Heang recommends and three things she doesn't recommend.**

| Should / Recommended | Shouldn't / Not recommended |

**TAPESCRIPT 3.8.1**

**Coach:** Hi everyone.
**All:** Hi Coach.
**Coach:** As you all know we have a match on Sunday against Sisowath High School. Now, you all know that's important to eat properly before the game. If you eat more fruit and vegetables, your body will feel healthier.
**Piseth:** But I like to eat a few hamburgers.
**Coach:** If you eat too much fast food, you will feel terrible! You won't feel healthy if you eat too much fast food. You all know that is very important to stretch your muscles before and after the game. If you stretch your muscles before the game, you will get fewer injuries. If you are injured, you won't be able to play.
**Vuthy:** Can we eat a big breakfast?
**Coach:** No, don't eat too much before the game. You will feel sick if you eat too much. Eat plenty of protein the night before the game. If you eat plenty of protein, you will have more energy. It's also important to get plenty of sleep. If you don't go to bed early, you will feel tired. If you feel tired, you won't play well! If you don't play well, we won't win the game!
**Vuthy:** How often are we going to practise this week?
**Coach:** We will practise playing football every day. You won't win the football match if you don't practise every day. The game will finish at 11.45 am. Afterwards we will all come back to the school on the bus. We have a new football kit to wear on Sunday. If you haven't had your new football kit yet, let me know and I will give it to you. You won't be able to play if you haven't got your kit. OK, that's it for now. Good luck on Sunday.

The first conditional is made up of the conditional (the if part of the sentence) and the result part of the sentence.
If + present simple, will + base verb.
For example: If I **eat** too much fast-food, I **will get** fat.

**4** **(8 mins): Activity 4. Listen again. Complete the sentences (T.3.8.1)**

If we put the **result part** first then we don't need the comma.

| Subject + will + base verb | if + present simple. |
|---|---|

For example: You will feel terrible if you eat too much fast-food.

## 5 These sentences have the same meaning as those in activity 4. Unscramble the words in Box (B) and write the sentences in your notebook.

**Piseth** : Your body will get stronger if you exercise.
**Coach** : Yes, thank you, Piseth. I think everyone understands. If you eat a balanced diet, you will have more energy. You won't have enough energy if you don't eat a balanced diet. Piseth! You look terrible! You need to change your diet. You eat too much fast food and you don't eat enough vitamins. If you eat more fruit and vegetables you will get all the vitamins you need. If you eat too much fast food, you will get fat. If you get fat, you won't be able to run! Do you understand?
**Piseth** : Yes, coach!
**Coach** : You won't be able to play football if you can't run. And stop drinking soda. If you keep drinking soda, you will put on weight. You should include more fibre in your diet. Fibre will help you digest your food. If you eat carrots and potatoes, you will get enough fibre. You won't win any football matches if you don't eat good food. So, if you want to play next week, you will need to eat properly and practise every day.
**Piseth** : We will win if we practise every day. Now go home and get some rest. See you all at school on Monday.
**Coach** : Errrrr. Yes, that's right. Thank you, Piseth!

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. What was the aim of the lesson?
2. Was the aim achieved?
3. Did the students enjoy the lesson?
4. If not, how could you make the lesson more entertaining?
5. Your own question(s)._____?

## 8c Healthy lifestyle - Lifestyle changes!

**1** **Look at the picture. Why is Piseth always tired?**

**2** T.3.8.4 **Listen, read and check.**

**Heang :** You don't look too good, Piseth. I heard your team lost the football match 5-1!
**Piseth :** I know. It was a bad game. Too many of the players aren't fit enough. That's why they beat us easily. And I didn't go to bed until midnight the night before the game.
**Heang :** Wow, that doesn't sound good. 12 hours sleep is too much, but five or six hours sleep isn't enough. If you keep going to bed late, you will feel tired all the time. What were you doing on the night before the game?
**Piseth :** I was chatting with the other players on Facebook for five hours.
**Heang :** Oh Piseth. 5 hours is too many! One hour a night is enough! You won't have enough time to do your homework if you spend too much time on Facebook. Did you do your homework?
**Piseth :** No! I didn't. I didn't have enough time.
**Heang :** You will get into trouble if you don't do your homework. If you get into trouble at school, your father will get angry. Have you eaten breakfast today?
**Piseth :** No, I haven't. I was late for school. I had too many jobs to do, so I didn't have enough time for breakfast.
**Heang :** If you don't eat your breakfast, you will feel tired all day. If you feel tired, you won't be able to focus on what the teacher says. You watch too much television and you don't spend enough time studying. It's also important to eat healthily. If you eat enough good food, you will feel healthier. You should listen to your football coach. He recommended some good ways to improve your lifestyle. If you listen to your coach, you will soon feel better. What did he say to you?
**Piseth :** He said, I eat too many hamburgers and that's why I don't have enough energy. I don't eat enough fruit and vegetables. He said, I drink too many sodas and I don't drink enough water. That's why I dehydrate so fast during the game. Fast food isn't very nutritious. He also said, if I don't do more exercise, I won't be fit enough to play football. Just walking to school is not enough exercise, I need to do more exercise.
**Heang :** Facebook is Ok if you look at it for a short time. If you look at Facebook too much, you won't have enough time to do anything else. We have great food in Cambodia, fresh vegetables full of nutritious vitamins. It's not enough just to eat one banana, you need to change your diet and your lifestyle.

## 9c Village health volunteer - Japanese NGO health worker

### 1 Look at the pictures.

★ What is wrong with Heang and Vottey?

### 2 Read the two stories. Who has to go to hospital?

H = Heang, HV = Health Volunteer, V = Votey

H : Hello.
HV : Hello. Could you tell me your name, please?
H : Yes, it's Heang
HV : OK, Heang what are your symptoms?
H : I bumped my head when I jumped into the river. And I twisted my ankle. My head feels a lot better, but I still have severe pain in my ankle. Could you take a look at it for me, please?
HV : OK, I think your ankle might be broken. So we need to take an x-ray. Could you ask your mother to take you to the hospital? You shouldn't have to wait very long. The doctor should be able to see you immediately. If your ankle is broken, they will put in a plaster cast for you. You will need to rest for one or two weeks. You should be fine in about 5 weeks. Could you give this note to the doctor at the hospital, please?
H : Yes, of course. Thank you so much.
HV : Bye!
V : Hello.
HV : Hello, Could you tell me your name, please?
V : Yes, it's Vottey.
HV : OK, could you tell me your symptoms, please?
V : Yes. I keep vomiting and I feel dizzy. My stomach hurts and I also have diarrhoea. And I have a high temperature.
HV : Could you tell me what you ate last night?
V : Yes, I had chicken at a local restaurant. It did taste a little strange, but I thought it was OK.
HV : I think you have food poisoning. If you have diarrhoea, you need to drink plenty of water because you will dehydrate. You will also be *deficient* [1] in vitamins, so try to eat some fruit. Don't eat any spicy food and rest until tomorrow. You should be fine by then. You shouldn't need to come back to the clinic. But, if you do, could you make an appointment with the receptionist first, please?
V : Of course. Bye.
HV : Bye.

[1] *deficient = not having enough of something that you need.*

**After the lesson:** Thinking about the lesson (Reflection)

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Were the activities in the lesson easy to implement? Why / why not?
2. Skimming is very useful for students. Students don't have to understand all the words in a text to understand it. Can your students skim texts well, or do they stop reading when they see new words? Giving a short time limit when reading helps students with this. Did you stick to the time limits? Why / why not?
3. Your own question(s)._____?

# Chapter 4, Unit 10, Lesson A
## Dangers in the city: A trip to Phnom Penh: It's bigger than I thought

*This lesson uses recordings which can be downloaded from the Ministry of Education, Youth and Sport website.* (50 mins)

**(9 mins): Warmer. Adjectives with a twist…**

1. Tell students to write the names of 3 animals they like in their notebooks. Allow 1 minute for this.
2. Next have them write 3 words that describe each animal. *For example:* **tiger:** mean, fast, strong; **bear:** big, furry, hungry; **rabbit:** shy, cute, lovable. Allow 3 minutes for this. *Walk around the room and make sure the students are not writing nouns by mistake.*
3. On the board write 'I think I am..., My friends think I am…, I am really...'
4. Put students in groups of 4 or 5 and have them read their descriptions. Tell them they must use the phrases you wrote on the board instead of the animal names, model this with the example: ***I think I am mean, fast and strong. My friends think I am big, furry and hungry. I am really shy, cute and lovable.*** Ask instruction checking questions. Allow 4 minutes for this.
5. When time is up, ask one or two students to share their answers with the whole class.

**1** **(5 mins): Activity 1. Unscramble the letters of the words**

1. Focus students' attention on the pictures and ask if they know what they are.
2. Tell them to unscramble the letters to spell the words shown in the pictures and to write them in their notebooks. Allow 3 minutes for this.
3. Go over the answers with whole class.

**Answers:** *1. sightsee 2. palace 3. reumork 4. traffic 5. countryside 6. volunteer*

**2** **(4 mins): Activity 2. Listen for the big idea (T.4.10.1)**

1. Have students listen to the conversation.
2. On the board write 'What is Naoko's job?' and 'What does she like about Phnom Penh?'

**Answers:**
*a. She is a volunteer at the health center.*
*b. There are more restaurants than in Pursat.*

**TAPESCRIPT 4.10.1**

**Naoko:** I travelled to Phnom Penh for the first time last weekend, because I wanted to go sightseeing, I hadn't travelled around since coming to volunteer here at the health center.
**Arunny:** Did you enjoy your trip?
**Naoko:** Yes, but Phnom Penh is busier than Pursat. There are more motorbikes and reumorks than in countryside. That made it easier to get around the city.
**Piseth:** What did you see?
**Naoko:** I went to the Royal Palace first. The Palace is bigger than I thought it would be, but it's not as large as the Emperor's Palace in Japan. Also, the palace grounds were more peaceful than the outside.
**Arunny:** How else does it compare to the countryside here?
**Naoko:** Hmmm… Let's see, well the traffic is worse in the city than it is here. There were cars everywhere and it seemed more dangerous than in the countryside. There are more people and the buildings are taller than they are in Pursat.
**Piseth:** Do you plan to go back?
**Naoko:** I don't know, maybe. The thing I like about Phnom Penh is there are more restaurants than here so, I was able to eat a lot of different food. The people are as friendly as they are in the countryside. But, it is louder than here at night. I don't think anyone sleeps in Phnom Penh.

**3** **(7 mins): Activity 3. Listen again and complete the sentences with the words you hear (T.4.10.2)**

b. architect
c. silk
d. guest house
e. museum
f. thief
g. monument

**2** **Quickly read Naoko's letter to her parents.**

★ What is the hardest thing she has ever tried?

**Dear Mum and Dad,**

I am writing this from Phnom Penh, the most populated city in Cambodia. I have come here to do some sightseeing. I want to buy a few things I can't get in Pursat, too. There are as many things to see here as there are in Tokyo.

The first thing I saw when my bus was coming into town was Independence Monument. It is the biggest monument in Phnom Penh. Cambodia's most famous architect, Vann Molyvann built it to celebrate the country's independence from French rule. I also visited the National Museum of Arts. It has the largest collection of Khmer objects in the world.
On my second day in town, the owner of the guest house where I was staying told me one of the best places to visit is Silk Island. He said it is the closest and most beautiful rural setting in the area. I took a boat cruise to get there. I was happy that I did, I think it is as stunning as the Pursat countryside. Many of the people on the island earn their living weaving silk. They live more simply than people in the city and they are some of the most friendly people I have met here. They allowed me to sit at one of the silk weaving machines to try it out. It is the hardest thing I have ever tried. Mum I bought you a silk scarf that is made better than any you own now.

When I returned, I went to Central Market to buy a few other things. It has the widest variety of goods in Phnom Penh. I bought everyone else's souvenirs there and probably cheaper than I could have any place else in the city.

Not everything is safe and beautiful in Phnom Penh. The traffic is worse than New York City and probably the worst I have seen in any large city I have visited except Bangkok and Jakarta. However the owner of my guest house told me that Phnom Penh has one of the greatest food delivery systems in the world and suggested that I call and have food delivered to the guest house. I am glad I did.

**I will write again later.**
**Love, Naoko**

★ Why are the local hardware shops busier than normal?

The Pursat Times learned last night that Officer Samlain was investigating yesterday evening's break in at Morokot's General Store. Officer Samlain said he was interviewing people who were in the area around 6 pm, the time of the crime.

Reporters on the scene found out that everyone interviewed had an alibi for what they were doing at 6 pm. We talked with Heang, a 15 year old photographer. She was taking photos of the crime scene this morning at 10 am. She said she was celebrating her parent's 25th Wedding Anniversary last night. Piseth and Vuthy said they were talking in front of the Chinese restaurant around 6 pm. Vuthy was busy sweeping when the crime occurred. He said he only saw the car as it was speeding away. Both said Officer Samlain wasn't allowing them to discuss who and what they saw last night.

When we spoke to Officer Samlain again today, he said he was getting close to the thieves he suspects were responsible. We know what they were wearing. We also have a description of the car they were driving.

The local hardware shops today were busier than normal. One shop owner said people were feeling nervous this afternoon, and were buying extra locks for their doors.

### 3 Choose the correct words. Write the sentences in your notebook.

a. Officer Samlain said he **was interview** / **was interviewing** people who were in the area at 6 pm.
b. She **was taking** / **were taking** photos of the crime scene this morning at 10 am.

**TAPESCRIPT 5.13.1**

**Piseth:** Hi Heang.
**Heang:** Hi Piseth.
**Piseth:** How are you?
**Heang:** I'm fine thanks.
**Piseth:** Who are you talking to on Facebook?
**Heang:** I'm talking to my cousin Vutthan. He has moved to Phnom Penh. Vutthan has passed all his exams and now he is going to attend Phnom Penh University. He has studied really hard to get there. He made a huge commitment to his studies. He hasn't taken a day off for two years. His sister, Nary, has passed the entrance exam to study in Canada. Nary has been there three times. She hasn't decided whether to accept the place at The University of Toronto, because she has also been offered a place at The University of Sydney in Australia! She has also travelled around Australia and New Zealand.
**Piseth:** Wow, your cousins are very clever and they have travelled to so many places. Have you ever been to Canada or Australia?
**Heang:** No, I haven't been to Canada or Australia, but I have been to Phnom Penh!
**Piseth:** Yes, I've been there a few times too.
**Heang:** If you want to do these things, you need to get good grades and commit a lot of time to your studies. How are your grades Piseth?
**Piseth:** Not too bad. But I need to improve my English speaking. I have taken extra classes in the past, but I find it difficult to commit much time to them, because I always have other things to do.
**Heang:** I wasn't very good at speaking English. But I have studied very hard and I have done lots of extra homework and now my English is improving. I haven't attended extra English classes because I can use the internet. I have attended extra classes for maths and they helped me to pass the maths test.
**Piseth:** Yeah, I suppose you're right. I haven't committed enough time to my studies. I need to make more of a commitment. Well, I must go now. I've just eaten my breakfast and I'm already late for class. I have been late for Mr Sovann's class three times already this term! He has spoken to my mum about it!
**Heang:** OK. Bye Piseth!
**Piseth:** Bye Heang!

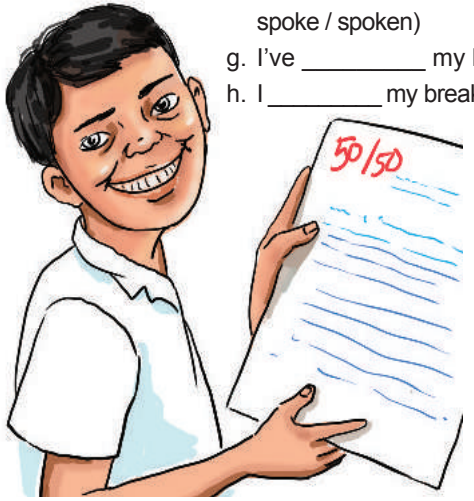

We can use the **present perfect** to talk about experiences we have had in our lifetime. (General experience)

We use the **present perfect** when talking about an action happened at some point in the past. The date or time that it happened is not important. The focus is on the action, not when.

**Present Perfect**: Form = Have/has + Past Participle (Verb 3)
**Example:** *He **has** studied hard. (Positive)*
*He **hasn't** studied hard. (Negative)*
*I **have** studied hard. (Positive)*
*I **haven't** studied hard. (Negative)*

**1** **Why is it important to study hard?**

★ Tell your partner.

**2** T.5.13.3 **Listen and read Vutthan's story. Why did Vutthan study hard?**

### Vutthan's story

I haven't always been a good student. When I was young, I didn't study very hard. I would sometimes get into trouble with the teachers. I've failed lots of tests! Then one day my dad asked me what I wanted to do when I left school. I told him I've always wanted to be a doctor. He said that I would need to study hard if I wanted to be a doctor.

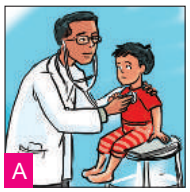

My mother and father are good people. They have worked hard all their lives. They haven't had a holiday for nearly five years. My father is a farmer. He has worked hard all his life and he has given up a lot to make sure I have all the things I need. It hasn't been easy for my mother either. She hasn't had any of the opportunities that I have, but she never complains. So, I made a promise to them to try harder and make the most of the opportunities I have.

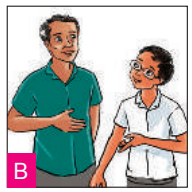

That was a long time ago. Tomorrow I will take my final high school tests. I have tried to prepare well. I've read lots of books about medicine and I've taken extra biology classes. I've also had some very helpful teachers who taught me a lot. It hasn't always been easy. I've spent many nights studying while my friends were at the cinema or playing on their computers. But, I haven't missed out on everything! I still play football with my friends and I've also learnt to play the guitar! I've won awards for being the most improved student and for coming first in biology. I've also had the opportunity to visit Canada and I might go to university there, but I haven't made my mind up yet.

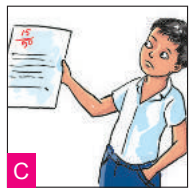

I haven't forgotten my promise and I still want to be a doctor and now I'm sure I can achieve my dream. It just takes lots of hard work and I've done lots of that!

"Take them tomorrow; and leave them."
The children were listening to their nasty stepmother's plan when Gretel **began** to cry. Hansel **hugged** his sister. "Don't cry, Gretel. I have a plan too," he said.

The two children **ran** up to the house. Hansel pulled a biscuit off the wall and **gave** it to Gretel. Then, he took a piece of chocolate.
While they were eating the bits of the house, the chocolate door suddenly **opened**, and an ugly old woman came out and said, "Hello. Who's eating my house?"

**Answer:** *She might fall down and break the pot.*

**TAPESCRIPT 6.17.1**

**Narrator:**
Once upon a time there was a sweet little girl. Everyone who **saw** her **liked** her, but most of all her grandmother, who did not know what to give the child next. Once she **made** her a hood of red velvet. The little girl **loved** the hood so much that she had worn nothing else since receiving it. Since that time, people *had called* her "Little Red Riding Hood".

One day having heard that her grandmother *had taken* ill, Little Red Riding Hood's mother called to her. "Come Little Red Riding Hood. Here is a piece of cake and a small pot of butter. Take them to your grandmother. She is sick and weak, and they will do her well. Mind your manners and give her my greetings. Behave yourself on the way, and do not leave the path, or you might fall down and break the pot, and then there will be nothing for your sick grandmother."

Little Red Riding Hood **promised** she would obey what her mother had told her and [13] set off on her journey.

But granny **lived** out in a forest, half an hour's walk from the village. While Little Red Riding Hood was walking in the forest, she **met** a wolf. But she did not know what a wicked animal he was, and was not afraid of him.

"Good day to you, Little Red Riding Hood," **said** the wolf.

"Thank you, wolf," she said.

"Where are you going so early, Little Red Riding Hood?" he **asked** her.

"To my grandmother's house," she *had replied.*

He asked her what she was carrying in her basket. To this she **replied**, "Grandmother is sick and weak, and I am taking her some cake and butter. We **baked** yesterday, and they should give her strength."

Then the wolf asked, "Little Red Riding Hood, just where does your grandmother live?"

"Her house is a good quarter hour from here in the forest, under the three large trees. There's a row of bushes there. You must know the place," said Little Red Riding Hood.

The wolf **thought** to himself, "This nice young girl is a delicious mouthful. She will taste better than the old woman; but you must trick her cleverly, so that you can catch both."

He walked awhile by Little Red Riding Hood's side. Then he said, "Little Red Riding Hood, haven't you seen the beautiful flowers that are blossoming in the forest? Why don't you go and take a look? And I don't believe you can hear how beautifully the birds are singing. You are walking along as though you were on your way to school in the village. It is very beautiful in the forest."

Little Red Riding Hood opened her eyes and could see the sunlight was coming through the trees and how the ground was covered with beautiful flowers. She thought, "If I take a bouquet to grandmother, she will be very pleased. Anyway, it is still early, and I'll be home on time." And she **ran** off into the forest looking for flowers. When she *had picked* one, she thought that she could see a more beautiful flower a little way off. Then she would run for that one. All the while, she was going further and further into the forest. But the wolf ran straight to the grandmother's house and **knocked** on the door.

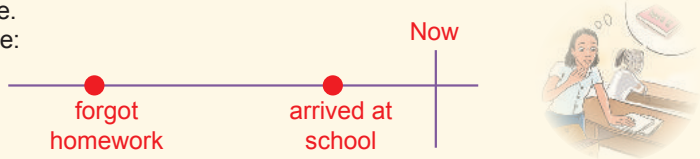

"Who's there?"

## 4 Past Perfect Practice.

**Rules:** When telling stories, in addition to using the **Past Simple** to explain the main events of a story and the **Past Continuous** to express longer actions interrupted by a shorter action. We also use the **Past Perfect**.

The **Past Perfect** is formed with **had + past participle**, i.e. When I arrived at the party, all of my friends **had gone** home.
We use it to talk about an event that happened before another event in the past.

When she arrived at school this morning, she discovered she had forgotten her homework at home.
Look at the timeline:

★ Look at tapescript 6.17.1 on page 233. Find 1 example of each tense in the story. Write them in your notebook.

★ Label the verbs PS (past simple), PC (past continuous) or PP (past perfect)

B. When she turned on the TV, the program ____ ____. (end)

C. The driver _____ _____ at the red light when he answered his phone. (stop)

D. The farmer ___ _____ all the eggs before the sun came up. (collect)

## 6 The last time I felt …

★ Think about times you have felt some of the ways below. What had happened to make you feel that way?

| | | | | |
|---|---|---|---|---|
| When was the last time you | felt / were | embarrassed / very relaxed<br>sad / really happy / tired<br>angry / excited / frightened | ? | What had happened?<br>What had you done? |

★ Did you predict correctly?

"It's Little Red Riding Hood. I'm bringing you some cake and butter. Please open the door for me", said the wolf.

"Just press the latch," grandmother replied. "I'm too weak to get out of bed."

The wolf pressed the latch and the door opened. He walked inside and immediately ate her up, for it'd been more than three days since he had eaten. He then shut the door and put on grandmother's clothes, pulling her cap down over his face. After that he got into her bed, closed the curtains and waited for Little Red Riding Hood to arrive.

While the wolf was eating grandmother, Little Red Riding Hood was running after flowers. When she had gathered so many that she wasn't able to carry any more, she continued on her journey to grandmother's house.

When she arrived, she knocked on the door. In his best grandmother voice, the wolf called weakly, "Who's there?"

"It is your grandchild Little Red Riding Hood. I have brought you some cake and butter from mother," she said.

To this the wolf had weakly responded, "Just press the latch; I am too weak to get out of bed."

As she was walking through the parlor, Little Red Riding Hood felt afraid and thought to herself, "Oh my gosh! How strange I feel today, however at other times I am so happy to be with my grandmother. Then she had gone over to her grandmother's bed and opened the curtains. Grandmother was lying there with her cap covering her face and looking very strange.

"Oh, grandmother, what big ears you have!" she said.

"All the better to hear you with," replied the wolf.

"Oh, grandmother, what big eyes you have!" she said next.

"All the better to see you with, my dear," answered the wolf.

"Oh, grandmother, what big hands and arms you have!" Little Red Riding Hood said next.

"All the better to hug you with, my precious child," lied the wolf.

**TAPESCRIPT 6.17.3**

**Narrator:**
"It's Little Red Riding Hood. I'm bringing you some cake and butter. Please open the door for me", said the wolf.

"Just press the latch," grandmother replied. "I'm too weak to get out of bed."
The wolf pressed the latch and the door opened. He walked inside and immediately ate her up, for it'd been more than three days since he had eaten. He then shut the door and put on grandmother's clothes, pulling her cap down over his face. After that he got into her bed, closed the curtains and waited for Little Red Riding Hood to arrive.

While the wolf was eating grandmother, Little Red Riding Hood was running after flowers. When she had gathered so many that she wasn't able to carry any more, she continued on her journey to grandmother's house.

When she arrived, she knocked on the door. In his best grandmother's voice, the wolf called weakly, "Who's there?"

"It is your grandchild Little Red Riding Hood. I have brought you some cake and butter from mother," she said.

To this the wolf had weakly responded, "Just press the latch; I am too weak to get out of bed."

As she was walking through the parlour, Little Red Riding Hood felt afraid and thought to herself, "Oh my gosh! How strange I feel today, however at other times I am so happy to be with my grandmother." Then she had gone over to her grandmother's bed and opened the curtains. Grandmother was lying there with her cap covering her face and looking very strange.

"Oh, grandmother, what big ears you have!" she said.

"All the better to hear you with," replied the wolf.

"Oh, grandmother, what big eyes you have!" she said next.

"All the better to see you with, my dear," answered the wolf.

"Oh, grandmother, what big hands and arms you have!" Little Red Riding Hood said next.

"All the better to hug you with my precious child," lied the wolf.

**2** T6.17.4 **What's your prediction?**

★ Read / listen to the last portion of the story to see if your group's prediction was correct.

Finally, Little Red Riding Hood had said to her grandmother, "Oh, grandmother, what a large mouth you have!"

"All the better to eat you with!" Next he jumped out of the bed, on top of Little Red Riding Hood and ate her up. As soon as he had finished this tasty bite, he climbed back into bed, fell asleep and in minutes was snoring very loudly.

A hunter was passing by. He thought it was strange that an old woman was snoring so loudly, so he took a look. He stepped inside the grandmother's house and in the bed there laid the wolf that he had been hunting for such a long time. "He has eaten the grandmother, but maybe she can still be saved. I won't shoot him," thought the hunter. Instead, he took a knife and cut the wolf's belly open.

He had cut only a few slices when he saw the red hood shining through. He cut a little more, and the girl jumped out and cried, "Oh, I was so frightened! It was so dark inside the wolf's body!"

And then the grandmother came out alive also. Then Little Red Riding Hood grabbed some large heavy stones. They filled the wolf's body with them. When he woke up and tried to run away, the stones were so heavy that he fell down and died.

After that the three of them were happy. The hunter took the wolf's pelt. The grandmother ate the cake that Little Red Riding Hood had brought, with butter spread on the top. And Little Red Riding Hood thought to herself, "**As long as I live, I will never leave the path and run off into the forest by myself if my mother tells me not to.**"

**TAPESCRIPT 6.18.1**

**Narrator: The King and the Poor Boy**
In a small village near the edge of the forest, there once lived a buffalo boy who had no mother or father. His uncle, who was the chief cook for the king, pitied the poor boy. So he invited the boy to stay with him in the palace. The grateful boy worked hard to help his uncle. He washed the plates, polished the cups, cleaned the dining room tables and mopped the floors. At the end of each month, his uncle gave him six cents as his wages.

Now the king frequently inspected the palace quarters. He had noticed often how hard the boy was working, mopping the floors or polishing the cups; and always cheerfully and in good humor.

One day the king asked the boy, "Do you receive wages for your hard work?"

The boy bowed and said, "Yes, I do, Your Majesty. I earn six cents every month"

Then the king asked, "Do you think you are rich or do you think you are poor?"

"Your Majesty," the boy replied, "I think that I am as rich as a king."

The king was taken by surprise. "Why is this poor boy talking such nonsense?" he thought to himself.

Once more, the king spoke to the boy, "I am a king and I have all the power and riches of this country. You earn only six cents a month. Why do you say you are as rich as I am?"

The boy laid down his broom and slowly replied to the king, "Your Majesty, I may receive only six sen each month, but I eat from one plate and you also eat from one plate. I sleep for one night and you also sleep for one night. We eat and sleep the same. There is no difference. Now, Your Majesty, do you understand why I say that I am as rich as a king?"

The king understood and was satisfied.

⋆ Why was the elephant worried?

### How the Hare Saved the Elephant's Skin

One day, clever Brother Hare was strolling in the big jungle where he met the Elephant. "Brother Elephant", he asked, "you look worried. Is it true?"

"Woe is me, brown Brother Hare," the Elephant answered, "I'm worried, all right. Yesterday I ran into the Tiger and he said he wants to eat me. That's why I'm worried. I'm so scared I don't know what to do."

"If that's all that's wrong, don't be upset. I'll help you out!" said the Hare. The Elephant was extremely relieved to hear this and said, "I'll do whatever you tell me."

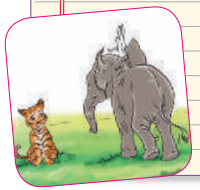

"Well then," said the Hare, "meet me here tomorrow. Don't worry about a thing." After that, he went on his way."

The next morning the Elephant returned to meet the Hare. The jungle was hot, quiet and frishtening. The Hare climbed onto the Elephant's back holding a long piece of bamboo in one hand. "Now when I hit you on your left side", he told the Elephant, "you throw your head to the left. When I hit you on the right, turn your head to the right. Ok?" The Elephant agreed.

Before long the Hare saw the stronge Tiger hiding in a bush. Acting like he hadn't seen him, he began hitting the Elephant, first on his left side, then on his right. The Elephant kept turning his head from side to side, just as the Hare had told him to do. Seeing this, the Tiger didn't know what to make of it. He lay still and watched.

"What type of creature is this?" he wondered. "So tiny yet able to capture such a huge elephant!"

He became afraid. The longer he thought about it the more his fears grew. Soon, he slipped off into the dark jungle.

So thanks to the Hare's wisdom the Elephant got out of his problem.

1. Before class write the following on the board: *1. Three things you can cut. 2. Three things you can wear. 3. Three other words for big. 4. Three things you can wear. 5. Three animals you can ride.*
2. Pair students.
3. Tell them they will have 5 minutes to complete the list with three things in each category.
4. Ask instruction checking questions. Allow students 5 minutes or until the first group says they are finished.
5. Have students count how many things they listed. The pair with the most is the winner.
6. Have them read their lists to the class. Other students tick the same words in their lists.

**1** **(6 mins): Activity 1. Unscramble the words and write them in your notebook**

1. Have students look at the pictures.
2. Ask them if they know what any of them are.
3. Tell students to unscramble the letters to make the names of the things in the pictures.
4. Have them write the words in their notebooks.
5. Ask instruction checking questions. Allow students 4 minutes to complete this.

**Answers:** *a. stroll b. problem c. wonder d. bush e. hide*

**2** **(4 mins): Activity 2. Read for the big idea**

1. Tell students they are going to read a short tale called *How the Hare Saved the Elephant's Skin*.
2. Ask if anyone has ever heard the story. If so, ask them to tell the class a short version of it.
3. On the board write, 'Why was the elephant worried?'
4. Tell students to copy the question in their notebooks and read quickly to find out what the elephant was worried about.
5. Ask instruction checking questions. Allow students 2 minutes for this.

**Answer:** *The tiger told him he was going to eat him.*

**3** **(9 mins): Activity 3. Answer the questions in your notebook**

1. Review the ingredients for a good story from the previous lesson with students.
2. Have students copy the table into their notebooks.
3. Ask instruction checking questions. Allow students 2 minutes for this.
4. Next look at the first entry in the table for characters. Ask students what else they know about Hare from the story or pictures. Have them fill in the blank.
5. Tell them to complete the table with information from the story.
6. Ask instruction checking questions. Allow students 7 minutes to complete this.

**Answers:**

| **Characters** | | **Setting** | |

## 4 Making inferences.

| To make an inference, you form an opinion or idea from facts or clues in the story | |
|---|---|
| **Detail from Hansel and Gretel** | **Inference** |
| "The witch has some treasure. She also has a map. Follow me! I'll show you." | Gretel found the treasure before. |

★ Now make more inferences about tiger and Hare. Why did he want to eat Elephant?
★ Who was the cleverest animal?

## 5 A man and his horse.

There once was a man who lived with his horse.
★ Listen to your teacher and help to tell the story about the man and his horse.

## 6 What happened?

★ With a partner complete the story in your notebook.

#OERCambodia

**4 (6 mins): Activity 4. Making inferences**

1. Read the table with students.
2. Explain to students that making inferences will help them understand important things about characters and events in a story.
3. Have them copy the table into their notebooks.
4. Ask instruction checking questions. Allow students 3 minutes for this.
5. When time is up, ask students, "Why do you think the Tiger wanted to eat the Elephant?" Sts: "He was hungry." T: "Yes, very good. Animals eat when they are hungry." "Look at the table above again. We can add that to what we know about Tiger." Ask them to make other inferences.

**5 (7 mins): Activity 5. A man and his horse**

1. Tell students you are going to read them a story, but will pause occasionally so they can help you write the story.
2. Begin and say: "There once was a man…." "Help me describe him, what does he look like?" Sts: "old/mad/thin/patient" Write their suggestions on the board.
3. Continue reading: "who lived with his horse…" "Help me describe the horse." Sts: "black/short/lazy/three-legged" Write their suggestions on the board.
4. Begin telling the story again, choosing one of the suggestions the students gave. "There once was a patient thin man who lived…" "Help me describe some more about him." Sts: "happily/in a box/alone" Write their suggestions on the board.
5. Read the rest. "with his three-legged horse. One morning the fat man rode…" "How did he ride?" Sts: "slowly/quickly…" Write their suggestions on the board.
6. Read the story again from the top including the students' suggestions. "*There once was a patient thin man who lived in a box with his three-legged horse. One morning the thin man rode happily to the store."*
7. At this point stop and ask students to write the story in their notebooks including the added details they suggested.
8. Ask instruction checking questions. Allow students 3 minutes to complete this.
9. Alternately, you could, do this as a dictation exercise. Just slowly say the sentence in chunks, *i.e. "There once was a thin….patient man…who lived in a box…with his three-legged horse…One morning the thin man rode…happily to the store."*

**6 (9 minutes): Activity 6. What happened?**

1. Now, on the board write: 'What happened?' Ask them what type of problem the thin man or his three-legged horse met.
2. Pair students and have them discuss what the thin man's problem was and how he solved it. Tell them you would like them to write 3 or 4 sentences to continue the story and describe the problem and how it was solved.
3. Ask instruction checking questions. Allow students 7 minutes to complete.
4. When time is finished, pair students with a different person and have them read their completed story to their partner.

**Example:** *There once was a thin patient man who lived in a box with his three-legged horse, Sam. One morning the thin man was riding Sam happily to the store, when Sam stepped into a hole. Since Sam only had three legs, he couldn't pull himself out of the hole. The thin patient man slowly walked back to his box and got his jack. When he returned to Sam, he put the jack under his chest. Then he raised it up until Sam's leg had been lifted out of the hole. They then continued their happy walk to the store.*

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask one or two students to read their finished story to the class. Ask other students who are the characters? What is the setting? What is the problem and solution?

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Does your classroom environment encourage students to take risks during speaking and writing activities?
2. Do you encourage students' questions and curiosity?
3. Your own question(s). _____?

# Chapter 6, Unit 18, Lesson C

## Folk tales and fairy tales: Creative writing: The old man and the monkeys

**(10 mins): Warmer. 20 Questions**

1. Tell students you are going to think of an object and they have to guess what it is. But they can only ask yes/no questions.
2. Allow students to ask a few questions, they will probably fall under the category of guessing the object outright, *i.e.* Is it a book? or Is it a ruler?
3. Tell them it could take a while to guess the object that way. Instead instruct them to ask information gathering questions, *i.e.* Can we eat it? or Can we ride it?
4. Encourage the students to collect information about the object you are thinking of before guessing what it is.
5. Play with students for 3 or 4 minutes until they get the hang of the game.
6. Put students in groups of 4 and have them play in their groups.
7. Ask instruction checking questions. Allow groups to play for 6 minutes.

**1 (10 mins): Activity 1. A picture's worth a thousand words**

1. Draw the table in Activity 1 on the board and have students copy it into their notebooks.
2. Have students focus on picture (a) and ask them who the characters are and where the story is happening. Accept any logical answer, *i.e.* old man, Panha, monkeys and in a field or in the country, under a tree. Write this information in the *character* and *setting* parts of the table and have students do the same. (See example below)
3. Next, ask them what the situation is, *i.e.* Why is the man there? What is he doing? Accept any logical answer again, *i.e.* he is tired, he is having lunch, he wants to take a nap. Write this information under the *situation* heading. (See example below)
4. After that, have students look at pictures b-f and brainstorm what they see happening. List ideas in the *vocabulary* section.
5. After 2-3 minutes of brainstorming, have students write these words in the *vocabulary* section of their table. (See example below)

***Example:***

| Characters | Setting | Situation | Vocabulary | |
|---|---|---|---|---|
| *Old man*<br>*monkeys* | *Under a tree*<br>*In a field*<br>*In the country*<br>***(any logical answer should be accepted)*** | *The man is tired*<br>*He wants to take a nap*<br>*He is having lunch*<br>***(any logical answer should be accepted)*** | *Tree*<br>*Basket*<br>*Hats*<br>*Playing*<br>*Stole* | *Sleeping*<br>*Surprised*<br>*Angry*<br>*Take off*<br>*drop* |

**2 (14 mins): Activity 2. The old man and the monkeys**

1. Spend 2 minutes with students reviewing the ingredients of a good story from lesson A.
2. Tell them they are going to use the information they see in the 6 pictures above and the table they made in the previous activity to create a short story.
3. First, ask students what sort of problem they think the man had. *The logical answer is the monkeys stole his hats*, but students might have other ideas. Allow them to voice those ideas. If the table from the previous activity is still up, you can add a new section labeled *problem* on the bottom to record ideas that students have about the problem in the story. (See example below)
4. Then, ask them how they think the problem was solved. Add another section under the problem and label its solution. Again accept any answer; the logical answer is in the table below.

## 4 Edit and Rewrite.

- ⋆ Read your story again.
- ⋆ Add some details that describe the characters and setting better.
- ⋆ Write your story in your notebook.

### Congratulations!

***Example:***

| Characters | Setting | Situation | Vocabulary |
|---|---|---|---|
| | | | |
| **Problem**<br>*The monkeys stole the old man's hats.* ***(any logical answer should be accepted)*** | | | |
| **Solution**<br>*The monkeys were repeating the old man's actions, so he threw his hat on the ground and the monkeys did the same.* ***(any logical answer should be accepted)*** | | | |

5. Finally, put students in pairs and tell them to use all the information they have gathered to write a short story about the pictures. Encourage them to discuss between themselves how to write the story and order the events.
6. Ask instruction checking questions. Allow students 10 minutes to discuss and write their story. Make sure to remind students that they should be using the narrative tenses they have been studying for the past several lessons.

**3 (3 mins): Activity 3. Read your story**

1. Have students change their partner.
2. Have them to read their stories to each other. Storylines may be similar, but reading a story aloud can help the writer see the action in their minds.

**4 (11 mins): Activity 4. Edit and rewrite**

1. Tell students that writers many times write their stories more than once, changing ideas and adding more description to their story.
2. Have students look at the pictures again and add some ideas about how the old man looks and the setting. Maybe suggest they describe the sounds the monkeys were making.
3. Tell students to ask themselves questions like you asked them in Activity 5 from lesson B: A man and his horse. Have them add these details to their story and write it again in their notebooks.
4. Ask instruction checking questions. Allow students 8 minutes to think and write.
5. During this time it would be a good idea to walk around the classroom and help students who are struggling. Ask: *How does he feel in picture C? What does he say in picture D? etc.*
6. When the allotted time is over, have students pair with someone they have not paired with today.
7. Have them read their stories to each other. Allow students 3 minutes for this.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask students to look at the 'can do' statements.
2. Have them tell their neighbour how they feel about the statements.
3. Ask some of the students to tell you how they feel. Use this to assess their understanding.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Were students engaged the entire lesson? Which students did not want to participate?
2. How could you alter the lesson so that those students who did not want to participate could produce a piece of writing?
3. Your own question(s)._____?

**4 (5 mins): Activity 4. Listen again (T.7.19.1)**

1. Tell the students to listen again, and fill in the gaps with a word from the listening.
2. Ask instruction checking questions to make sure the students understand the activity.
3. After the listening is finished, give the students a minute to check their answers with their partner.
4. Go through the answers together.

**Answers**: *a. who b. who c. that d. that e. who*

5. Ask the students to look at the rules.
6. Make sure they have an understanding of the rules before moving on.

**Defining relative clauses**: People
**Defining relative clauses** give essential information we need to identify the person we are talking about.
For example: Buy it from the butcher **who wears the black hat.** Without the defining relative clause, **(underlined, bold)** Vuthy wouldn't know which butcher his mother was talking about.
In defining relative clauses we often use **that** instead of **who** when we talk about people. This is very common in informal speaking.

**5 (5 mins): Activity 5. Match the description to the picture.**

1. Ask the students to look at pictures **a** and **b.**
2. Explain that Vuthy should buy the beef from the butcher who wears a black hat, so the answer is **b.**
3. Ask the students to work in pairs and complete the rest of the activity.
4. Ask instruction checking questions and give a time limit of 2 minutes.
5. When the students have finished writing, go through the answers as a class.

**Answers:** *1. B 2. C 3. F 4. G*

*A. Buy the beef from the butcher who wears a yellow hat.*
*D. The old lady that doesn't wear sunglasses.*
*E. The woman that owns the stall with the purple umbrella.*
*H. Buy the pickles from the man who has two legs.*

**6 (8 mins): Activity 6. Use *who* and *that* to join the two sentences.**

1. Ask the students to look at the example.
2. Point out that the two sentences can be joined using a relative pronoun (who or that) to make one sentence.
3. Explain that they can use either who or that to join the two sentences.
4. Tell the students that they don't need the words that are underlined.
5. Go through the rest of the example with the class.
6. Ask the students to work in pairs to complete the activity.
7. Ask instruction checking questions and set a time limit of 5 minutes.
8. When the students have finished writing, go through the answers as a class.

**Answers:**

*a. Speak to the lady **who / that** wears sunglasses.*
*b. He has a wife **who / that** won the lottery.*
*c. He has a sister **who / that** has green hair.*
*d. Talk to the woman **who / that** works there.*
*e. Buy the beef from the woman **who / that** has a new market stall.*
*f. That's the other old lady **who / that** doesn't wear sunglasses.*

**7 (6 mins): Activity7. Describing people.**

1. Ask the students to look at the words in the box.
2. Tell them that they are going to take it in turns to use relative clauses to define the words in the box to their partner.
3. Go through the example as a class.
4. Put the students into pairs.
5. Ask instruction checking questions and set a time limit of 5 mins.
6. After the students have finished speaking, ask one or two students to define one of the words to the class.

**(2 mins): Learner assessment and lesson wrap up**
*Assessing the success of the lesson. Not testing all the students!*

1. Write the name of a job on the board. *(For example: Hairdresser).*
2. Tell the students to think how they would use relative clauses to define this job.
3. Give them a minute to talk to their partner to discuss the question and form their answers.
4. Ask individuals to define the job to the class.
5. Check that the students are using the target language correctly.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Positive feedback encourages students to participate in class. How did you encourage your students today?
2. Did you remember to inform weak students who were trying hard that they are doing well?
3. How will you encourage the weaker students next time?
4. Your own question(s)._____?

## 19b A wedding - Mrs Mom

**1** **Look at the picture. What is happening?**

**2** T.7.19.2 **Listen and read.**

★ Did Mr Phearith and Mrs Mom receive a lot of money?

**Vuthy** : That was the best wedding I've ever been to!
**Heang** : Me too. Mrs Mom looked beautiful and Mr Phearith was so handsome!
**Piseth** : They received so many envelopes with money inside. What do you think they will buy?
**Vuthy** : I know Mrs Mom wants to buy a new rice-cooker. She's using the rice-cooker that my mother gave her when she first arrived at our school. I wonder where she can buy a good rice-cooker.
**Heang** : She can buy a new rice-cooker from the store which is opposite the park! I remember she also said she wanted some new towels that are the same colour as her bathroom. She can buy them from the shop which is next to the gas station.
**Piseth** : Maybe they will buy a new motorbike. Mr Phearith drives a motorbike which is 20 years old. There it is! It's the motorbike which is under the tree. The motorbike that Mrs Mom drives is over there. It's the motorbike that has a red seat. It's also very old. Where would be the best place for them to buy a motorbike?
**Vuthy** : A new motorbike would be a good idea. They can buy a motorbike from the garage that gives a 10% discount! I think they should also buy a new television. We bought the television which my uncle recommended. It's great. They could buy the same one.
**Piseth** : Hey! Maybe they will buy the dog that my neighbour is selling. It's the dog which is always barking. They can take it for walks in the morning!
**Heang** : I don't think they'll buy that dog. It's so loud! Well, whatever they buy, I'm sure they'll be very happy!

**Heang** : Well, we need a mop and bucket to clean the floor. You can buy them from the new store in town.
**Piseth** : Which new store?
**Heang** : The new store that has a huge blue and yellow sign. The man who used to sharpen knives works there. We also need two brooms which you can buy from the same place.
**Vuthy** : Yes, I know that store. Anything else?
**Heang** : Buy 5 litres of floor cleaner. Buy the floor cleaner that smells like lemons. Please don't buy the purple floor cleaner which smells like flowers. I don't like it!

**Vuthy** : Yes, I know her. Who is going to clean the toilets?
**Heang** : I'll do that. I will need a pair of rubber gloves to protect my hands. Buy the rubber gloves that are in the yellow and blue packet. They are very strong. And I need a sponge to clean around the hand-basin.
**Vuthy** : Anything else?
**Heang** : We can use the dustpan which is in the cupboard to sweep up outside. So, you don't need to buy one. And don't forget to bargain with the sellers in the market. Buy from the person who gives you the best price.
**Piseth** : OK, I'll go straight away! Where's my bicycle? It's the bicycle that I ride to school everyday.
**Vuthy** : There it is! It's next to my bike.

3. Ask some of the students to tell you how they feel. Use this to assess their understanding.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Getting students to tell you about the topic is a good teaching strategy. It maximises students' talk time and makes them confident. It also helps them use what they already know to help them learn more. This means they remember the lessons better. Do you get the students to tell you about the lesson or do you explain everything yourself? How can you make students more active in your classes? Think of 2 ways. Try them out in your next classes.
2. How do you encourage students to share their ideas with the class? Giving them positive comments such as 'great idea' and 'thank you' is one. Also giving students time to think and not criticising wrong answers helps. Any more ideas?
3. Your own questions:_____?

## 23b Independence Day – How it was won

**1** **Match the words to the pictures. Write them in your notebook.**

accept struggle join forbid officials

**2** **Read and answer the question.**

★ Why did the King travel to the United States, Canada and Japan?

During World War II, Cambodia's protectorate agreement was ended by the Japanese Army. When the war ended, the king was told by France that his *declaration*[1] of independence was not accepted.

After France returned to Cambodia, King Sihanouk worked tirelessly to get independence. In June 1952 a promise was made to the Cambodian people that full independence would be gotten in three years.

In February 1953 King Sihanouk started what is called his 'Royal Crusade for Independence'. He traveled to France to argue his country's case. Many letters were written and many meetings with French government officials were held. King Sihanouk's wish for full independence was requested in each one. Unfortunately, he was refused each time.

To help his promotion, it was decided that Cambodia's wishes for independence should be publicized. It was thought that perhaps general *public opinion*[2] from around the world would help the country realize its dream. The King traveled to the United States, Canada and Japan and it was hoped that letting the world know about Cambodia's struggle for freedom would help make France change their mind.

When his tour was finished, the King exiled himself to Siem Reap. In June of 1953 ordinary Cambodians were called on to mobilize for a possible war with France. The King was joined in Battambang by 400,000 Cambodians who were ready to fight for their right to freedom. This caused the French government to think again about its position in Indo-China. On 3 July 1953, it was declared that Cambodia would be given independence along with Laos and Vietnam.

[1] declaration: the formal announcement of the beginning of a state or condition.
[2] public opinion: views held by common people.

2. Have them tell their neighbour how they feel about the statements.
3. Ask some of the students to tell you how they feel. Use this to assess their understanding.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

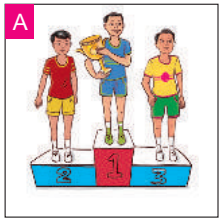

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Working in groups has a lot of benefits. It's a good way to get students to talk more. It encourages sharing of ideas and listening to each other. However, grouping students can be difficult. Some students want to work with their friends only. How did you group students in today's lesson? Was it effective?
2. If students refuse to work with others, what do you do? How can you encourage students to work with anyone in the class? One way to do this is to group them in random (e.g. draw lots). Any ideas?
3. Your own question(s)._____?

**Piseth:** Did you enjoy yourself?
**Heang:** Yes I did.
**Piseth:** Had you ever gone to the Water Festival before?

There were so many people that had come to celebrate with their team, that some people were saying the city's population **had increased** to two times its size. It was difficult to move along the riverside.
**Piseth:** Did your uncle's team race well?
**Heang:** At the start of the boat races, his team **had been** the team to beat. By the end of the second day they were in third place. Then something happened that had given them the motivation to race harder in the finals. Before they started rowing back up the river, the King **had stood up** and **had clapped** for them. They decided that they were going to be winners no matter what happened the next day.
**Piseth:** Did they win?

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Encouraging students to guess the meaning of new words gives them ownership of the language and they will remember the words better. Did you provide enough opportunities for students to guess what the new vocabulary might be?
2. If you feel that new words are familiar, international or similar to Khmer, and that students are likely to know them, make them guess! What do you tell your students if they don't guess right? Do they really have to 'guess right'?

**2 Read quickly and answer the question.**

★ What does Heang think is the best way to experience Water Festival?

**Piseth:** The races sound like they were great, what about the rest of your time in Phnom Penh? You didn't just sit along the river and watch boats float by, did you?

**Heang:** No, there were many things I wanted to see. There were two things I had planned to do specifically on this trip. The first was to see the illuminated floats on the river. My grandmother told me every year until she died that it was the most beautiful parade she had ever seen.

**Piseth:** I love the illuminated float parade.

**Heang:** Yeah, it was pretty awesome. The other was something I'd always dreamed about. Sokun Nisa has been my favorite singer forever and seeing her live was my biggest wish of all.

**Piseth:** You're lucky. I've always wanted to see her. Did you take any photos?

**Heang:** No, I had left my phone with my aunt, so it wouldn't get stolen. There were so many people. I was amazed at how many people had crowded into the riverside area. People were walking shoulder to shoulder.

**Piseth:** Had you ever been in a crowd that large before?

**Heang:** No, but I was glad so many had travelled to Phnom Penh. Before I left for the festival, my mother and I had made a large tray of Ambok for me to sell. On the first evening of the Moon Salutation ceremony I had sold half of my tray by sunset. After I paid my mum back for the ingredients, I calculated that I had earned 200,000 Riel.

**Piseth:** Wow that's really good. Maybe you should go to the Water Festival every year.

**Heang:** I don't know, I think maybe staying home and watching the races on TV is the best way to experience the Water Festival.

1. Do you ask your students to read aloud in class? How often do you ask students to read aloud in class?

# Unit 25 – Clean our town

## 25a Clean our town – Piseth's anti-pollution ideas

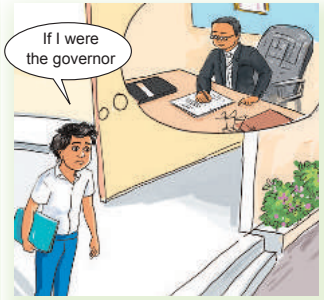

**1 Look at the picture.**

- ★ Tell your partner what you can see.
- ★ What's in the water?
- ★ How did it get there?

**2 Read Piseth's class presentation.**

- ★ Are Piseth's ideas good or bad?

If I were the district governor, I would make a lot of changes in our district to help with pollution and the environment. If I were elected as governor, I would instruct everyone to turn off their taps while brushing their teeth. As this would save 100 litres of water per month for every person who obeyed the law. If I were given the job, I would tell everyone to re-use their water bottles every day. This would help with pollution in the streets as there would be far less plastic bottles in the trash. If I were in control of the town, I would make its law that everyone must ride bicycles in town. This would help with air pollution and make the air we breathe healthier. If I were in charge, I would encourage everyone to switch off lights and electrical appliances whenever they left a room. This would save on energy and help with the pollution caused by the town generators.

**3 Match the pictures to the words and phrases in the box.**

1. governor
2. pollution
3. environment
4. taps
5. water bottles
6. trash

## 25b Clean our town – Arunny's anti-pollution ideas

### 1 Look at the picture.

- ★ What can you see?
- ★ What caused the pollution?
- ★ What can we do to stop this happening?

### 2 Read the story.

- ★ Would you like Arunny to be the district governor?

I would make a lot of changes to stop pollution destroying our environment if I were the district governor. I would make everyone use cloth bags if I were in charge. This would reduce the number of plastic bags in the environment, which can kill birds in a number of ways. I would create new parks if I were in control of the town. This would help to restore our natural environments, and give birds a place to live. I would ban the chemicals used by farmers if I were given the job. This would help to protect our natural habitats, and stop birds from being poisoned. I would ban cars and motorbikes if I were elected. These bans would stop air pollution, and help to make a cleaner environment for everyone.

### 3 Read again. Match the sentence halves. Write the sentences in your notebook.

| | | |
|---|---|---|
| 1. I would make a lot of changes to stop pollution destroying our environment | | a. if I were in control of the town. |
| 2. I would make everyone use cloth bags | | b. if I were given the job. |
| 3. I would create new parks | *1* | c. if I were the district governor. |
| 4. I would ban the chemicals used by farmers | | d. if I were elected. |
| 5. I would ban cars and motorbikes | | e. if I were in charge. |

### 4 Read the rules for the second conditional.

**Rule:** If we use the '***result***' clause first, we don't use a comma. We use a comma between the clauses if we use the '***if condition***' clause first.

**Comma**

| Result | | If condition |
|---|---|---|
| I would ban people from cutting down trees | No | if I were the district governor. |
| **If condition** | | **Result** |
| If I were the district governor | , | I would ban people from cutting down trees. |

# Unit 26 - A day at the lake

## 26a A day at the lake – What happened to the fish?

**1** **Look at the picture. Tell your partner what you can see.**

- ★ What happened?
- ★ How did the fish die?
- ★ What can we do to stop this happening again?

**2** T.9.26.1 **Listen and read the text. Should they go swimming in the water?**

**Vuthy:** Wow! Look at all of the dead fish. How did that happen?
**Mr Phearith:** The farmers could be to blame, Vuthy. If farmers use too much [1] **fertilizer** on their fields, it will [2] **pollute** the water and kill the fish.
**Mrs Mom:** We need to stop this or a lot of people will go hungry. If the farmers stopped using fertilizer, the water would be cleaner.
**Mr Phearith:** Yes, I agree! If they use [3] **manure** instead, the lakes and rivers will be cleaner.
**Heang:** It could also be the chemicals released by the [4] **smokestacks** in town. If they release [5] **chemicals** into the air, they will pollute the rain.
**Mrs Mom:** That's correct, Heang. If the world's governments enforced anti-pollution laws on businesses, the water would be a lot cleaner.
**Mr Phearith:** I agree with you both. If the smokestacks pollute the rain, when it rains it will poison the rivers and lakes. And, if big businesses stopped polluting the air, rivers and lakes wouldn't be as dirty as they are today.
**Vuthy:** Mmm! It could have something to do with that big pipe and the dirty water it's putting into the lake.
**Mrs Mom:** Wow! I didn't see that. Ughh! That looks like raw [6] **sewage**.
**Mr Phearith:** If raw sewage is pumped into lakes, it will eventually kill all of the fish. If anyone swims in this water, they will run the risk of catching a lot of [7] **diseases.**
**Mrs Mom:** Ughh! There needs to be more [8] **treatment plants**. If the government invested more money in treatment plants, raw sewage wouldn't be pumped into our lakes. If we had more treatment plants, the water would be a lot cleaner.
**Vuthy:** Mmm! If the water here was cleaner, we would be able to go swimming. Let's find somewhere else to swim though, because it smells really bad, and if it's killed the fish what could it do to us.
**Mrs Mom:** Good idea!
**Mr Phearith:** OK!
**Heang:** Let's go!

3. Your own question(s)._____?

## 26b A day at the lake – Worldwide pollution

### 1 Read the text and match the people to the pictures.

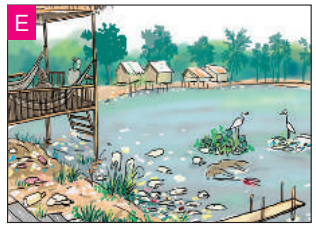

**Mr Phearith:** Pollution is a global issue and everyone should be aware of it. For example, some lakes around the world have been polluted by local oil refineries. If oil spills into the environment from these refineries, our lakes will be polluted and all of the wildlife will suffer. If the oil industry educated all of its employees in the latest clean-up techniques, the problems caused by these oil spills would be far less damaging.

**Piseth:** When I went on holiday recently, one of the lakes I visited was heavily polluted with plastic products. If we dump our plastic products near our lakes, they will suffocate and kill the wildlife. If everyone disposed of their plastic products safely, the environment would be a much safer place for animals to live.

**Heang:** When I visited a lake near my hometown it had been polluted by waste water. If the water from household appliances is pumped into our lakes, it will affect humans if they eat fish from the lake. If everyone used environmentally friendly household cleaning products, it would help to solve the problem.

**Vuthy:** Some of the most polluted spots on earth have been contaminated by nuclear waste from nuclear facilities. If nuclear power plants break down, they will pollute water systems and contaminate the fish that live there. If the world's governments banned nuclear power, the world would be a safer place in which to live.

**Miss Mom:** There are lots of factories near my hometown and some of them pour chemical waste into the lake. If the factories pour waste into our lakes, it will deplete the oxygen and kill the wildlife that lives there. If governments imprisoned the owners of factories who did this, the water would be cleaner and our wildlife wouldn't die.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask a few students to tell you the story of Arunny and the old bird.
2. Ask a few students to tell you what they would do if they met their husband/wife.
3. Praise good language use, and take a mental note of any students who are struggling.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Students learn far more from talking with their friends than they do listening to the teacher! Comparing answers before coming back together as a class means that students support one another in learning the correct answer (and the reason it's correct!). Did you give enough time for students to self-correct their work?
2. When you do ask and answer questions as a class, this should be a quick confirmation of what students already know. Did you spend too much time talking about the correct answers?
3. Are there groups of kids who are not working well together? What can you do to make sure everybody can work well (e.g. break up groups who are always off task)?
4. Do you encourage an environment where students feel confident to talk with their groups?
5. Your own question(s)._____? C9-12

# Unit 27 - Cardamom Mountains

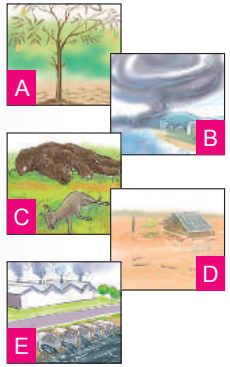

## 27a Cardamom Mountains – The dangers of deforestation

### 1 Heang is talking about the dangers of deforestation.

★ Read and match the numbered sentences with the pictures.

We need to stop cutting down trees in the Cardamom Mountains. Deforestation is a serious problem because forests and trees aren't just pretty to look at, they do an important job making the earth's environment suitable for life. [1] If we lose too many trees, the wildlife in the area will die. Trees also clean the air, store water, preserve soil, and provide homes for animals. [2] So, if we continue to cut them down, it will affect the water we drink and the air we breathe. They also supply food, fuel, wood products, and paper products for humans. [3] So, if we allow deforestation to continue, it will also affect the food we eat. In the past fifty years, more than half of the world's rain forests have been destroyed. Today, the forests of the world are being cut down at a rate of fifty acres every minute! [4] Scientists say that if deforestation continues, the world's climate will change. [5] They also claim that if we don't tackle the problem, floods will become more common, and animals will die.

### 2 Read the story in activity 1 again. Use first conditional sentences to answer the questions and write them in your notebook.

a. What will happen if we lose too many trees?
b. What will happen if we continue to cut down trees?
c. What will happen if we allow deforestation to continue?
d. What do scientists say will happen if deforestation continues?
e. What do scientists claim will happen if we don't tackle the problem?

T.9.27.1 **Listen and check.**

### 3 Cover the story in activity 1. Choose the correct words to complete the first conditional sentences.

a. If we [1] **lose / *~~lost~~*** too many trees, the wildlife in the area [2] **would / will** die.
b. So, if we [3] **continued / continue** to cut them down, it [4] **would / will** affect the water we drink and the air we breathe.
c. So, if we [5] **allow / allowed** deforestation to continue, it [6] **would / will** also affect the food we eat.
d. Scientists [7] **say / said** that if deforestation continues, the world's climate [8] **will / would** change.
e. They also [9] **claimed / claim** that if we don't tackle the problem, floods will become more common, and animals [10] **will / would** die.

## 4 Read Heang's solutions for deforestation. Use second conditional sentences to answer the questions and write them in your notebook.

a. What would happen if we used less paper?
b. What would happen if we reduced our paper use?
c. What would happen if we reused old paper?
d. What would happen if we recycled all of our used paper products?
e. What would happen if deforestation continued at today's rate?

One solution to the problem of deforestation is to use less paper.[1] If we used less paper, fewer trees would be cut for paper making. How can you use less paper?[2] If we reduced our paper use by using both sides of the paper when we wrote a letter, we would use a lot less paper and save a lot of trees. A second answer is,[3] if we reused old paper, we would also save the trees and wildlife in the forests. The backs of old envelopes are perfect for shopping lists or phone messages, and when you write a rough draft of an essay, write it on the back of something else.[4] If we recycled all of our used paper products instead of throwing them away, we would also protect the forests and our environment. We need to do something to stop deforestation, as most scientists agree that[5] if deforestation continued at today's rate, the world's climate would change, natural disasters would become more common, and a lot of wildlife would die.

T.9.27.2 **Listen and check.**

## A Protect our planet: Cardamom Mountains: Community Forest Groups

*This lesson uses recordings which can be downloaded from the Ministry of Education, Youth and Sport website.* (50 mins)

**(6 mins): Warmer: The last letter game**

1. On the board write the word 'party'. Explain that students must make a word with the last letter e.g. 'yellow' and so on - wall, long, green, etc.
2. Split the class into groups of four.
3. Ask the first group to say a word out loud to begin the game. The next group has to make a word with the last letter and so on.
4. Tell them they only have a couple of seconds to make the new word.
5. If they take too long or make an incorrect word they are out of the game.
6. The last team wins.

**1** **(5 mins): Activity 1. Look at the picture and answer the questions**

1. As students to look at the picture of the Cardamom Mountains.
2. Ask them to discuss the questions with their partner.
3. Ask instruction checking questions and give a time limit of 4 minutes.
4. Go through some of the students' answers together.

**Answers:** *There are no correct answers. Students' answers may differ.*

**2** **(5 mins): Activity 2. Which problem is the worst?** (T.9.27.4)

1. Tell students that they are going to listen to Mr Phearith talking about 6 problems created by deforestation.
2. Write the question on the board – *Which problem is the worst? Why?*
3. Make sure students understand the question.
4. Ask them to listen to Mr Phearith and answer the questions.
5. Ask them to think of reasons why they chose their answer.
6. Ask instruction checking questions and make sure everyone understands the activity.
7. Go through some of the students' answers together, and remember to ask them why they chose their answer.

**Answers:** *There are no correct answers. Students' answers may differ.*

**TAPESCRIPT 9.27.4**

**1**. The Cardamom Mountains forest plays an important role in the global climate. It keeps a lot of carbon within the forest. If we destroy the forest, the carbon will go into the air and add to global warming.

**2**. It is also a key part of the water cycle. A lot of water goes into the sky from trees. If we lose the forest, we will lose its ability to store water.

**3**. The Forest protects soil from erosion. Trees shelter the soil from wind and rain and tree roots stop soil from moving. If we cut down the forest and the soil erodes, it will reduce the ability of the soil to store water and nutrients.

**4**. The forest also takes lots of water which helps stop flooding. If we cut down too many trees, rainwater will flood villages and other land in the area.

**5**. The forest is also a habitat for more than half of Cambodia's wildlife. It is the richest habitat in the country. If the animals lose this environment, they will eventually die out.

**6**. Forests provide food, shelter, medicine, and materials for making clothes, baskets and other useful things. If the forest is lost, we will lose all of the resources it provides.

**3** **(5 mins): Activity 3. Match the words in the box with the pictures**

1. Ask students to look at the pictures and tell their partners what they see.

5. Go through the answers together.

**Answers:** *a. flooding b. global warming c. erosion d. water-cycle e. carbon f. nutrients g. climate h. habitat*

## 5 Read Mrs. Mom's solutions for deforestation.

★ Do you agree with her solutions?

1. If we started Community Forest Groups, it would help to solve some of the problems of deforestation.
2. If we employed these types of groups, it would help to protect our forests for future generations.
3. If we used re-forestation as a solution, we would grow new forests in places where the trees have been destroyed.
4. If we re-planted all of the important trees we have lost, we would help all of the important plants to return.
5. If we held regular workshops between different communities, we would be able to teach everyone how to protect our forests.

## 6 Match the solutions to the pictures. Write your answers in your notebook.

## 7 Cover the text in activity 5. Unscramble the sentence halves in box B to complete the sentence halves in box A. Write the complete sentences in your notebook.

Of course the first question I asked him was, "Where [1] ***are*** we ***going*** (go)?"
"I'll let you know later," he said smiling and winking at my mum.
The entire ride I was asking him questions, "What [2]____ we _____ (do)? How long is it going to take? Are we eating soon?"
All my dad had said among all these questions was, "In time, in time."
When we reached the station at NhaTrang, my dad said, "We [3]_____ (get off) here to have a snack. Also, we [4]_____ (continue) our journey by bus later today."
"By bus. Why [5]____ we _____ (ride) a bus? Where are we going? What are we doing?" I asked him.
He smiled again and looked at my mum and then said, "OK. We [6]_____ (take) a detour. We [7]_____ (accompany) Mr. Yamata to Dalat.He [8]_____ (work) as a nature photographer. He [9]_____ _____ (shoot) photos for a story there. He has asked us to join him."
When I heard what we were preparing to do, my head started filling with all types of other questions, "Which magazine are you working for? What type of camera lens [10]____ you _____ (use) for the story? What [11]____ you _____ (take) photos of?" For the full 3 hour bus ride up the mountain to Dalat, Mr. Yamata sat next to me and answered every question I had asked him.

When we reached the station at NhaTrang, my dad said, "We [3]**are getting off** here to have a snack. Also, we [4]**are continuing** our journey by bus later today."
"By bus. Why [5]**are** we **riding** a bus? Where are we going? What are we doing?" I asked him.
He smiled again and looked at my mum and then said, "Ok. We [6]**are taking** a detour. We [7]**are accompanying** Mr.Yamata to Dalat. He [8]**is working** as a nature photographer and [9]**is shooting** photos for a story there. He has asked us to join him."
When I heard what we were preparing to do, my head started filling with all types of other questions, "Which magazine are you working for? What type of camera lens [10]**are** you **using**? Early on our first day in Ayutthaya, it started raining. After watching the rain for about half an hour, my dad said, 'I feel like going for a bicycle ride. Want to come?' I enjoy learning about ancient culture and I didn't want to miss a great adventure with my dad, so I said, 'Sure.' 2 _____

By the time we reached the third temple the sun had started shining. My dad took out his camera and began snapping pictures of the temple complexes. He is a very artistic person. 3 _____ Then with a click we'd continue riding.

We visited many temples that day, but my favourite was Wat Mahathat. There is a large Buddha head resting in the roots of a Banyan tree. In another part of the complex are rows of headless Buddha statues. Standing and staring at the statues, I couldn't help wondering what had happened to them.

Biking through Ayutthaya enabled us to see many odd little things we would have missed traveling in a car or reumork. 4 _____

**3 Read the text again and add the sentences.**

1 I recently returned from traveling in Central Thailand. My dad and I went to several pagodas in Ayutthaya and Lopburi.

Early on our first day in Ayutthaya, it started raining. After watching the rain for about half an hour, my dad said, 'I feel like going for a bicycle ride. Want to come?' Not wanting to miss a great adventure with my dad, I said, 'Sure.' 2 My dad is the type of person who doesn't mind getting wet, so we rented a couple of bicycles and set off pedalling in the rain.

By the time we reached the third temple the sun had started shining. My dad took out his camera and began snapping pictures of the pagoda complexes. He is a very artistic person. 3 Every once in a while he'd yell, 'Stop moving and give me your best smile.' Then with a click we'd continue riding.

We visited many pagodas that day, but my favourite was Wat Mahathat. There is a large Buddha head resting in the roots of a Banyan tree. In another part of the complex are rows of headless Buddha statues. Standing and staring at the statues, I couldn't help wondering what had happened to them.

Biking through Ayutthaya enabled us to see many odd little things we would have missed traveling in a car or reumork. 4 Cycling through town we saw elephants walking around, colourfully decorated vehicles and lots of crazy statues of chickens.

## 4 Rules for Gerunds.

A gerund is the base form of the verb + -ing.
**It can be positive *(i.e.* going) or negative (*i.e.* not going)**

1. Early on our first day in Ayutthaya, it **started raining.**
2. **After watching** the rain for about half an hour, my dad said, 'I feel like going for a bicycle ride.
3. Standing and staring at the statues, I **couldn't help wondering** what had happened to them.
4. **Biking** through Ayutthaya enabled us to see many odd little things we would have missed travelling in a car or reumork.

**Use:**
1. After some verbs, i.e. *start, miss, stop, continue, enjoy* (See page 261)
2. After prepositions
3. After some expressions, i.e. *can't help, don't mind, feel like*
4. As the subject of a sentence

★ Which use of the gerund are the sentences in activity 3. Write the number of the use next to each sentence in your notebook.

## 5 Use the gerund form of the verbs in the box to complete the story. Write them in your notebook.

| | | | | | | |
|---|---|---|---|---|---|---|
| astonish | be | enter | give | grab | hike | hire |
| scream | see | spend | take | travel | visit | walk (x2) |

After 1 ***spending*** two days cycling around the temples in Ayutthaya, my dad decided we should go to Lopburi for a couple of days. He told me he had considered 2 _____ in Chiang Rai, but changed his mind. As we went to Lopburi, he told me that going by bus would be faster but he loves 3 _____ by train. He didn't tell me what we were going to do there but said it was going to be interesting.

4 _____ is how I would describe Lopburi. 5 _____ out of the train station I learned why it's called 'Monkey City.' Frightened and 6 _____, a tourist had gotten surrounded by a group of monkeys that had taken an interest in her scarf. Her travel partner was suggesting 7 _____ them the scarf. She didn't seem to enjoy the idea of 8 _____ robbed by a gang of primates and stood there screaming at them.

Dad and I kept 9 _____ to the town's most famous attraction, Prang Sam Yot. 10 _____ Angkorian era temples is a hobby my dad and I share. 11 _____ this one is the 100th Khmer style temple we have seen together.

Before 12 _____ the temple complex, my dad decided that 13 _____ a guide would be a good idea. It was a good thing too. He explained to us the monkeys love 14 _____ at brightly coloured objects or things hanging loosely off of you. He told us they especially love 15 _____ cameras away from tourists.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask individual students to name one use of gerunds.
2. Ask individual students to provide you with an example of each gerund use in activity 5.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

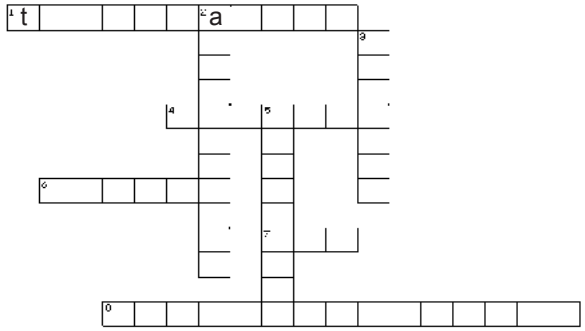

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. You can't learn a new language if you don't use it. Students should be encouraged to speak English in class. Students don't get enough practice using English outside the classroom, so it's important they practise in class. Did your students have enough opportunities to 'use' English in today's lesson?
2. Students at this level probably do not have enough English yet. This will make them use Khmer in class, to ask you questions or to discuss some ideas. What do you do when you hear students talking in Khmer? What do you do if they answer in Khmer?
3. When your students respond in Khmer, one good thing to do is to 'recast' their answers in English. This means you say them in English, but also make sure that students understood what you said. Responding to them in English is also a good idea. Any other ideas? Does miming/use of gestures help?
4. Your own question(s): _____?

## 29c Sightseeing in Thailand – Travel problems

## Taking a Trip to a Neighbouring Country: Sightseeing in Thailand: Travel problems

*This lesson uses recordings which can be downloaded from the Ministry of Education, Youth and Sport website.* (50 mins)

**(8 mins): Warmer. Turn left, turn right**

1. Prepare a list of sentences related to the grammar you have taught the past 3 weeks. Some should be correct and some should be incorrect. *E.g. Where do you want to go? To cycle through town we saw elephants walking around, colourfully decorated vehicles and lots of crazy statues of chickens. Then Thursday we will touring Hoi An and I can't wait. My cousin Chhoun lives in Vietnam and I am meeting him in Can Tho on Friday. Etc.*
2. Tell students to stand up.
3. Then tell them you are going to read some sentences to them. If they think the sentence is grammatically correct, tell them to turn **left**. If they think it is incorrect, tell them to turn **right**.
4. Ask instruction checking questions.
5. Reveal whether the sentence is correct or incorrect. Students give themselves 1 point if they got the answer correct.
6. For the sentences that have a mistake, give students 1 minute to correct it. Reveal the correction, and students can award themselves a bonus point if they corrected it right.
7. At the end of time, the student(s) with the most points is the winner.

**1 (8 mins): Activity 1. Crossword Puzzle**

1. Pair students.
2. Tell them to use the words in the box above the clues to complete the puzzle.
3. Complete the first clue across (**1**) and the first clue down (**2**) with students as class examples.

**Answers:** *1. travel agent  2. application*

4. Ask instruction checking questions. Allow students 7 minutes to complete.

**Answers:** ***Across:*** *4.minivan  6. strict  7. era  8. middle of nowhere*
***Down:*** *3. roundup  5. influence*

**2 (4 mins): Activity 2. Read and answer the question**

1. Ask students if any of them have ever travelled somewhere by themselves. If so, ask them if they had any problems or if their parents were against the idea.
2. On the board, write: 'Where does Vuthy have a trip to look forward to?'
3. Have students quickly read, no more than 2 minutes, and answer the question in their notebooks.

**Answer:** *Vuthy has a trip to Sihanoukville to look forward to.*

**3 (5 mins): Activity 3. Rules of verbs followed by either a gerund or to + infinitive**

1. Read through the table with students.
2. Tell them to copy the table into their notebooks.
3. Allow 4 minutes for this.

for the expensive bus, so I had to tolerate a shared minivan, again!

The final matter was that I planned on meeting up with some school friends while there. My parents advised me [14]**to avoid / avoiding** two of my chosen friends as they were bad influences! They would not even consider allowing me [15]**to meet up / meeting up** with these two, not to mention stay with them for a few nights! Unbelievable, my parents are so strict!

The final result is that I have no passport, a 15 person minivan booked to somewhere within the area of O'Smach, with a guest house booked in the middle of nowhere where the doors close at 8 pm, so I couldn't even go out if I wanted to! Looks like I have a trip to Sihanoukville to look forward to. Great present for [16]**to work / working** hard.

## 3 Rules of verbs followed by either a '*gerund*' or '*to + infinitive*'

**Some verbs can be followed by either a 'gerund' *or* 'to + infinitive' *(See page 261)***

Some verbs can be followed by both forms ***without changing*** the meaning.
*I.e. begin, forbid, intend, start*

*The bus **started to move,** but then stopped.* *The bus **started moving,** but then stopped.*

Some verbs are followed by both forms, but the ***meaning*** of the sentence ***changes***.
*I.e. forget, remember, stop*

*I **forgot to call** my mother the other night.* (you wanted to do something but you forgot about it.)

*I **forgot calling** my mother the other night.* (you forget about a memory, something that you've done in the past.)

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Teachers learn from each other. It's good to talk to your fellow teachers about things happening in your classroom – whether good or bad. When you share your experience with other teachers, you help create an environment where people learn from each other. Do you discuss / talk to your fellow teachers about your students / your teaching? How often?
2. How happy are you to talk about things that you feel didn't go right in your classroom? If you aren't happy, why do you think this is? Remember, we all learn from our mistakes.
3. Do you share activities and teaching strategies that worked well in your class to your fellow teachers? Remember, sharing is the key. Learn from your fellow teachers as they too, learn from you.

**4 (7 mins): Activity 4. Rules for making future decisions using *will* and *going to***

1. Read through the example sentences and rules with students.
2. Tell them to copy the table into their notebooks.
3. Allow 3 minutes for this.
4. After they copy the table, in pairs have students look at (T.10.30.1) on page 245.
5. Tell them to find 2 uses of each *future decision form* in the tape script and write them in their notebooks.
6. Ask instruction checking questions. Allow students 3 minutes for this.

**Answers:** *possible **will** and **going to** uses are highlighted in (T.10.30.1)*

**5 (8 mins): Activity 5. Complete the conversation using *will* or *going to* (T.10.30.2)**

1. Tell students they will listen to Vuthy and Piseth talking about the trip itinerary.
2. Have students look at the first line of the conversation. Ask them if they think Vuthy has a plan to get to Laos on his bicycle or if he's deciding as he speaks with Piseth. **Ss:** he has a plan. **T:** Do we use will or going to? **Ss:** going to. **T:** so the answer? **Ss:** How are you going to get?
3. Have students read through the conversation and decide if they will use *will* or *am/is/are + going to* in the blanks.
4. Ask instruction checking questions. Allow students 10 minutes to read the conversation and decide which word to use. Remind them to write the words in their notebooks.

**Answers:** *See (T.10.30.2)*

**TAPESCRIPT 10.30.2**

**Piseth:** OK, tell me about your trip plans. How [1]are you going to get to Laos on your bicycle? I looked at a map and it's over 300 kilometres from here to the border.
**Vuthy:** I know. I'm taking a bus through Stung Treng to the border. I'm starting my ride at the border. I [2]'m going to ride a large loop called the Southern Swing.
**Piseth:** How much money [3]are you going to budget for your trip?
**Vuthy:** I am going to budget about 80,000 riels a day, but I don't think I [4]will spend that much each day. Guest house rooms only cost around 8,000 riels. If you come, we can share the cost of the room. I'm budgeting a little more if I have a big problem, then I[5]will have money to pay for it.
**Piseth:** What about a visa? Will you have to go to the embassy in Phnom Penh?
**Vuthy:** No, I [6]won't need a visa. As citizens of an ASEAN country we can travel without a visa in other ASEAN countries for up to 30 days.
**Piseth:** How far [7]will you bike each day?
**Vuthy:** My entire route I mapped out is 600 kilometres. I [8]am only going to ride 60-80 kilometres a day. I'm also going to take rest and exploration days. [9]Will you come with me? I think it is going to be a lot of fun.
**Piseth:** OK, I [10]'ll do it, but I think it will be really difficult.

**6 (8 mins): Activity 6. Pair work**

1. Tell students they are going to work in pairs and react to what their partner says.
2. Read through the example with students.
3. Have student A turn to page 262 and student B turn to page 270.
4. Have student A say their sentence to their partner. Student B decides if A is talking about something planned (*going to*) or something to be decided right now (*will*).
5. When A is finished reading their sentences, the partners should switch roles.
6. Ask instruction checking questions. Allow students 5 minutes for this.

**(2 mins): Learner assessment and lesson wrap up**
*Assessing the success of the lesson. Not testing all the students!*

1. Ask a few students about their plans for the weekend or after the lesson.
2. Ask individual students to tell you the individual use of *will* or *going to*.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

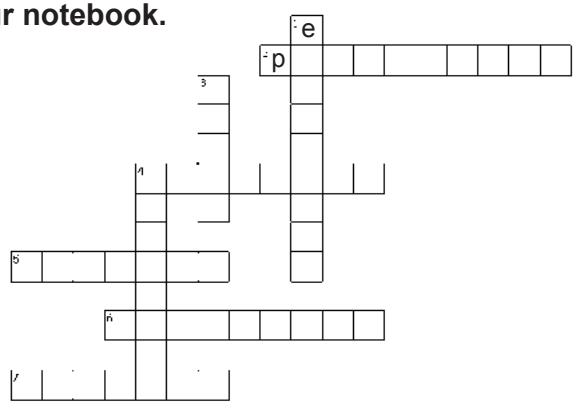

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Do you have *'classroom rules'?* How effective are they? Do you stick to the rules closely? Children work best to classroom rules that are fair and unchanging. Classroom rules help you manage the class better. They help students understand what is expected of them.
2. What do you do when students break *'the rules'*? Do you embarrass them in class or talk to them quietly after class? Can you think of other ways to avoid embarrassing your students when they break the rules?
3. Modelling the rules yourself helps students understand what is expected of them. Do you follow your classroom rules?
4. Students are likely to respect the rules if they helped to create them. Don't just tell students what to do! Ask them for their ideas, and make the rules together. Or ask students to set their own classroom rules. You may be surprised at the results!
5. Your own question(s)._____?

We are going to rest for a day when we arrive in Pakse.

* Day 3 **Pakse, Laos**
The rest day was a good idea. Our legs feel refreshed. Today we are going to begin our climb up to the Bolaven Plateau. This morning at breakfast Piseth said it will be a good idea to each fill a water bottle with coconut juice and to buy some bananas,

* Day 6 **Tat Lo, Laos**
Although it was a 500 meter climb in elevation, Piseth and I made it here in good time. It only took us one and a half days. When we rolled into town yesterday, I looked at Piseth and said, "I won't be able to ride for at least a day." He smiled and said, "Good." We will stay here at Mama Pap's Homestay and hang out at the Tat Lo Waterfall, enjoying the beautiful landscape. Tonight Mama Pap said she is going to make us a traditional Lao meal. After eating mostly noodle soup for every meal on the road, I will be pleased to eat a nice homemade meal.

* Day 7
Tomorrow we are going to set off for the Ozone Bolaven Farm, a local coffee plantation. We are going to spend a couple of hours touring the farm and seeing how coffee is made. Then it's on to Paksong for a 2 day rest. We are also going to use the time to see the many waterfalls that cover the area.

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Allowing students to have pride in their work builds their confidence. This means that they are more willing to try and participate in activities. Do you pay attention to what your students produce in class? Do you only look for mistakes in your students' work? How often do you give positive comments?
2. Trying is more important than succeeding, and failure is an opportunity to learn. Did you praise your students for trying their best today? How can you encourage students to try out activities that might be difficult? Do you allow them to take pride in just trying?
3. If activities are done perfectly by most students, this probably means they are too easy. They may be learning nothing new. Do students' works have to be perfect? Do you let students take pride in their work even if they aren't perfect?
4. Your own question(s)._____?

**Vuthy:** We have ridden about 300 kilometres.
**Mum:** Will you take a break soon?
**Vuthy:** Oh yeah. We will take the next two days to rest and check out some waterfalls. After climbing a steep hill that rose 900 meters in elevation, we decided we deserved one. Yesterday we toured a coffee plantation. Then we rode here to Paksong.

## 6 (9 mins): Activity 6. Future board game

1. Play the board game in groups of 3. Students can use pen caps or erasers as game markers and a bottle cap as a die: label side=2 squares, bottom side=1 square.
2. Write the rules on the board
   - Players count off 1, 2, 3 or 4.
   - Player 1 flips the bottle cap and moves that number of squares.
   - Player 2 asks Player 1 the question. If Player 1 answers correct they remain on the square. If the response is grammatically incorrect Player 1 moves back.
   - Take it in turns to flip the cap and answer the questions about your future.
   - The first player to reach the finish square is the winner!
3. Play continues until someone reaches the finish square or class time runs out.

**(2 mins): Learner assessment and lesson wrap up**

*Assessing the success of the lesson. Not testing all the students!*

1. Ask students to look at the 'can do' statements.
2. Have them tell their neighbour how they feel about the statements.
3. Ask some of the students to tell you how they feel. Use this to assess their understanding.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Think about your lessons when you first started teaching. All teachers have some horror stories - things didn't go well as planned when they first started teaching. What's your story?
2. Now think about your success stories. Did you notice any change in your teaching style / in your understanding of how students learn a foreign language? Take pride in your progress! You deserve it.
3. Your own question(s)._____?

## 31b Last year – The interview

### 1 Who would you like to interview?

- ★ Why would you like to interview that person?
- ★ What would you ask them about?

### 2 Read and answer the questions in your notebook.

- ★ What had Pisey's first idea about the United States been?
- ★ Why is Heang interested in Pisey's trip to the US?

For my class project, I interviewed Pisey about her trip to the United States last year. There were a lot of questions that I wanted to ask her.

Pisey told me that she had traveled to California with her family last year. I asked her why she had gone. She told me she had traveled to California to visit her Aunt Sokna, Uncle Panha and Cousin Sam. I asked her if she had ever gone to the United States before. She told me it had been her first time outside of Cambodia. I asked her if she had been scared. She said she had been nervous when they arrived, because the airport was so large and crowded. She said she had been afraid to make a mistake.

I asked her what her first feeling of the US had been. She told me her first feeling had been that everything was big. She said even that the serving sizes of food were 2-3 times larger than they were in Cambodia. I asked her if she had tried any new types of food. She told me one food she had tried that she enjoyed a lot was a burrito. She said it was meat, rice, vegetables and cheese that was wrapped into a flat type of bread. She told me her brother had liked them so much he had eaten one every day until they returned to Cambodia.

After talking about food, we discussed some of the places she had visited while in the US. I asked Pisey where she had visited that had left an impression in her mind. She told me it was in Los Angeles when they had visited the Hollywood sign. She said it stood high up on a hill and when she had looked down, she could see all across the city. She said she could see the ocean on her right and the mountains on her left. She told me the Los Angeles Zoo was the most amazing zoo she had ever seen. She said there had been so many animals she had only seen in pictures, like penguins and polar bears.

Finally I asked Pisey how California compared to Cambodia. She told me it didn't, because Cambodia was so small and California was so big. She had said however that her Uncle Panha had told her that some days it would be hot or rainy like Cambodia. But he also had said that most days it was just a nice day, and the sun was shining and the sky was blue.

At the end of the interview, Pisey had asked if she could ask me a question. I said she could. She asked me why I was so interested in her trip to the US. I told her because my dream was to attend school in the United States someday and become a famous photographer.

Then, suddenly the shadow of a bird had flown in front of him. He had thought that he 2**had run** it over. When he had gotten off his bicycle to look at it, he had received a big surprise. There had been nothing lying in the road.
Later a policeman had walked up and listened to Lyvann's story. He 3**had told** Lyvann about a myna bird that had died in that area. Lyvann said the policeman's eyes had gotten really big and in a scary voice, he had told Lyvann he 4**wasn't** the only person who had seen a ghost there. Lyvann said he had become frightened and cried that it was Avorng.

**B.** I overheard Mr Sovann and Mrs Mom while I 5**was working** at the Chinese restaurant. Mrs Mom asked Mr Sovann 6**if** he had done anything interesting the past week. He told her he 7**had gone** for a walk in the jungle and it had been very hot. She asked him 8**what** he had done to cool down. He told her that he had found a tree that had a huge hole in it. He said the hole turned out to be a big cave and he had crawled into it. Mrs Mom asked him if it had been dark in there and he told it had been, but that he had also found a river inside. He said that he 9**had swum** through the cave into another cave. She asked him if he had been in there for a long time and if he had been frightened. He told her he had been in there for about 3 hours and at the beginning of his exploration he 10**hadn't been** frightened, but as he had remained in there and swum deeper into the caves he had become very frightened. He told Mrs Mom with a laugh that when he had been able to see the sun and trees again, he had let out a loud cheer.

**C.** My friend Sam, who lives in the United States, told me this story about a time he had experienced his first earthquake. He told me he had been at his desk doing his homework when the earthquake had started. He said the chair he 11**had been sitting** in had started to move across his room. I asked him 12**what** he had done. He said that when the floor had stopped moving, he had run out to find his mother. She had been in the kitchen cooking when the earthquake had started. He said he had found her standing in front of the cooker and she had told him that she 13**hadn't felt** anything. Sam said they had decided to look outside and see if there was any damage to anything. He told me they had seen some trees that had fallen and had heard some sirens in the distance, but it hadn't been a very bad earthquake. Sam said he had seen on the news that it 14**had** only **measured** 5.5. He said the news also had said that although the hospitals had been busy that evening, no one had died.

## 32b Today – I will frequently feel this way

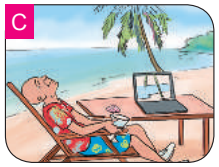

### 1 Unscramble the words.

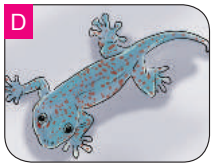

sveboer

eecaps

reiret

rtearceu

### 2 Read quickly and answer the question.

★ What feeling is Mr. Sovann going to have to get used to?

Today is the day, the day I retire. I never thought this day would come. I always imagined I would do this job forever.

I remember my first teaching job as a science teacher. The students would get really excited when I occasionally brought in a live animal or insect, so we could observe its habits. Sometimes, the creature we were observing would escape. It was rarely a danger however. Overall, my classes were generally well behaved.

My time as a School Director was seldom as exciting as my years teaching. I am able to say, at least, that I was usually able to go home each evening satisfied with the job my staff had done that day.

I know in the coming months I will frequently feel as if I should be going to get the school ready for the day. That is a feeling I am going to have to get used to, it's someone else's job now.

### 3 Match the correct sentence halves.

**TAPESCRIPT 11.33.6**

**Mrs. Mom:** Thank you. I know you all have a lot of questions, so let's settle down. Think about what you want to ask and I will call on you individually.
**Heang:** Mrs. Mom, 1 when are you due?
**Mrs. Mom:** I will have the baby in early October.
**Vuthy:** 2 What sex is the baby? I mean, is it a boy or a girl?
**Mrs. Mom:** We don't know yet. We will find out when we go to see the doctor in two months and I have a test to see how the baby is developing.
**Vuthy:** 3 Which sex do you hope it is?
**Mrs. Mom:** I hope it's a girl.
**Piseth:** 4 Why do you hope it's a girl?
**Mrs. Mom:** I have always dreamed of having a little girl that I can dress up in pretty dresses and teach how to dance.
**Apsara:** 5 Where are you going to have the baby?
**Mrs. Mom:** I am going to have the baby at a hospital in Phnom Penh. Both of our parents live there, so it would be nice to involve them in the **birth**.
**Heang:** 6 Who do you think the baby will look like, you or Mr. Phearith?
**Mrs. Mom:** Well, I hope the baby looks like both of us. Mr. Phearith has big square shoulders, so I hope all of our kids have his strong looking **stature**.
**Piseth:** 7 What are you going to name the baby?
**Mrs. Mom:** We have been discussing that. If it's a boy, we agree that we'll call him Kosal. However, if it's a girl, we'll have to make a decision. I like the name Kolab, but Mr. Phearith wants to call her Kunthea. Maybe we can use both names.

**After the lesson:** Thinking about the lesson (Reflection)

*Reflection is important and all good teachers do it. It doesn't matter if everything went wrong. What's important is to learn from it! Remember, no lesson is ever "perfect"!*

*Think about the answers to these questions. You don't have to tell anyone the answers!*

1. Look back to when you first started teaching. Do you notice any change in your teaching style / in your understanding of how students learn a foreign language? Make a list! Take pride in your progress! You deserve it!
2. We believe most of your students have significantly improved their English! Congratulations! How many of your students still need extra help in grade 9? Would talking to their other teachers about their progress help? How else can you help them?
3. Apart from English, what do you think your students learned from you that will help them in their everyday lives? What did you learn from them?
4. Your own question(s)._____?
